

ANNUAL REPORT 2014

FOREWORD BY THE GOVERNOR OF THE LIBEREC REGION

Dear Citizens of the Liberec region,

Welcome to the annual report for the second year 4th term of the new political representation of the Liberec region, which emerged from the November elections of 2012.

The ruling coalition of “Mayors for Liberec Region” (SLK) and “Change for the Liberec Region” (ZpLK) were fulfilling their program until the end of 2014.

For the second year, we present to the public, information on the activities of the Liberec region. We will summarize the results of work by members of the Regional Council, recapitulate what has been achieved and inform about upcoming plans and projects for the year 2015.

2014, I am convinced that the Liberec region and its face is better because of the result of the work and efforts of its people, successful personalities and dedicated enthusiasts, both large and small companies and entrepreneurs, but also many others who volunteered, without any remuneration, working in various non-profit organizations, associations, civic associations and interesting organizations. To all I give my appreciation, because every year they make our region more beautiful and a better place to live. Without thanking them, this report would not be complete.

With a number of people in our region to do some good tries, I had the opportunity to meet during regular days with the Governor. On the spot to get acquainted with the problems of individual parts of the Liberec region, visiting successful schools and businesses, but also carefully listen to complaints and complaints of Mayors on deficiencies and malfunctions of the region and its institutions. Regular meetings and open discussions with citizens not only on the Days of the governor are interesting to me and helpful. Liberec region is not a single region, its parts have different problems and worries. They may from Liberec, no explanation on the spot, looking like little important and unimportant. A search for solutions is also one of the main tasks of the governor.

The year 2014 was particularly marked by the work in order to fulfill our campaign promises. Whether it be the responsible management of public money, finding sensible savings, opening up the region to the public or to prepare concrete investments that will improve the condition of regional roads, schools, retirement homes or hospitals. Many major projects this year were successfully completed, with the others crossing the finish line before the end of the year. I would like to mention some specially successful projects, a heliport in regional hospital and the insulation of the main buildings for the Hospital in Česká Lípa (72 mil. CZK), which we pushed through in the spring of 2013 saving 25 mil. CZK from the regional budget. Another significant project, Hospice for the Liberec region, is in the phase of construction, which you can continuously monitor yourselves which I believe will be completed by the end of 2015. I can not forget the new Regional Gallery, which opened at the end of February in our historic spa, also the repair and insulation of our schools, retirement homes, museums and other regional facilities.

A separate subject is undoubtedly our roads regional roads, ie roads class II. and III. Still pushing ahead past the regional government debt while providing repairs to roads damaged by flooding in 2010. 500 mil. CZK was secured after my personal meetings with various ministers during the first half of 2013. Although many roads damaged in 2010 from floods are repaired, roads in Frýdland, Chrastava, Vítkov, Raspenava or Nová Ves. Roads in Heřmanice and Višňová are not complete. I understand

the complaints of residents of these places as well as those that restrict various diversionary routes. Please be patient your regional governments can promise that next year they will be completed.

The regions road condition is a big issue for most of its population and we see it as our duty to put this right, Already this year a number of repairs have been made (some ongoing) to roads financed mainly from EU funds (170 mil. CZK), and next year we will start on many others (540 mil. CZK) and new projects under development (amounting to approx. 500 mil. CZK). In the long term we are looking for along with other governors and government system, solutions for financing repairs to roads, which will enable us to significantly improve their current, sometimes unfortunate condition.

I firmly believe that the county council, which emerged from the newly formed coalition will be in for the remaining two years of this term in cooperation with the entire county councils true guarantor and co-creator of the successful economic development and care for our region. Exactly as promised our representatives work for the benefit of citizens of the Liberec region of whom we represent and who elected us.

A handwritten signature in blue ink, which appears to read "Martin Půta". The signature is fluid and cursive, written on a white background.

Martin Půta
Governor of the Liberec Region

OVERVIEW OF BASIC INFORMATION ABOUT REGION, INCLUDING ITS SYMBOLS

The Liberec region is located in the north of the Czech Republic. The area includes the north of the Czech basin, Jizera Mountains, west of the Krkonoše Mountains and the eastern foothills of Lužické Mountains. Its northern edge is a 20 km border with Germany, followed by the 130 km long border with Poland. The eastern part of the county adjacent to the Hradec Kralové region, in the south adjacent to the Central Bohemia region and Western region of Ustí. These include a region with a high proportion of children and a low proportion of pensioners.

The region has a predominantly industrial character. Mainly of the glass and jewelry industry, manufacturing, plastic processing, engineering and manufacturing sectors closely tied to automobile manufacturing. The traditional textile industry has been lost due to a slowdown in recent years.

The territory of the Liberec region is also affected by the Euroregion Neisse-Nisa-Nysa. It consists of three border areas located in the territory where the borders of the Czech Republic, the Federal Republic of Germany and Poland. The territory of the Liberec region is an integral part of the Euroregion Neisse-Nisa-Nysa, which was established in 1991.

Liberec region has outstanding natural and cultural attractions for tourism, both winter (skiing and classic skiing - Jizera Mountains, Ještěd, which are also nice in the summer.

For summer travel, you can choose almost any activity - walking and cycling (both mountain and the low-lying areas - such as the former military training area), climbing (Česky Ráj), swimming (Macha's lake, rivers), urban tourism (Liberec, Turnov, Frýdlant, Jilemnice etc.), tourism monuments (castles, urban conservation areas, and rural conservation zone).

The most visited castles and palaces are Bezděz, Zákupy, Lemberk, Frýdlant, Sychrov, Velký Rohozec, Wallenstein. Also spas are sought after by visitors from neighboring countries. With its rich cultural and historical tradition, which is reflected in the large number of historic buildings, monuments and cultural facilities in the region annually lures thousands of visitors. The symbol for the surrounding areas became a unique example of a mountain hotel Jested which received the Perret's Prize for its design.

The rich cultural and historical traditions of the region is reflected not only in large quantities of historic

buildings and monuments, but in cultural institutions. The supra-regional institutions importance, especially in the North Bohemian Museum of Liberec, Liberec Regional Gallery and Research Library. Major cultural institutions are also FX Šalda Theatre scene is the Little Theatre and the Naive Theatre in Liberec Zoological and Botanical Gardens in Liberec. Among the cultural facilities of regional significance include a number of museums and galleries in different parts of the region. Following the tradition of glass jewelry and this area offers visitors such as the Glass Museum in Nový Bor, Kamenický Šenov and Železný Brod, Museum of Glass and Jewellery in Jablonec nad Nisou.

Museum of Bohemian Paradise own collection in the field of geology, mineralogy and documentation jewelry and jewels, which are unique only in the Czech Republic but also in Europe. Equally important facilities as libraries and their branches in the lower territorial units.

The Liberec region has great possibilities for study. It is necessary to mention the existence of high schools in the Liberec region. This is a technical university Liberec Faculty of Mechanical Engineering, Textile, natural science, humanities and education, economics, art and architecture, Mechatronics and Interdisciplinary Studies.

Furthermore, for young people there are the opportunity to study at many secondary schools (gymnasias, secondary technical schools, secondary vocational schools, integrated secondary schools, and special schools).

List of municipalities with extended powers in the Liberec region:

Česká Lípa (www.mucl.cz)

Frýdlant (www.mesto-frydlant.cz)

Železný Brod (www.zelbrod.cz)

Regional Symbols

Banners and flags

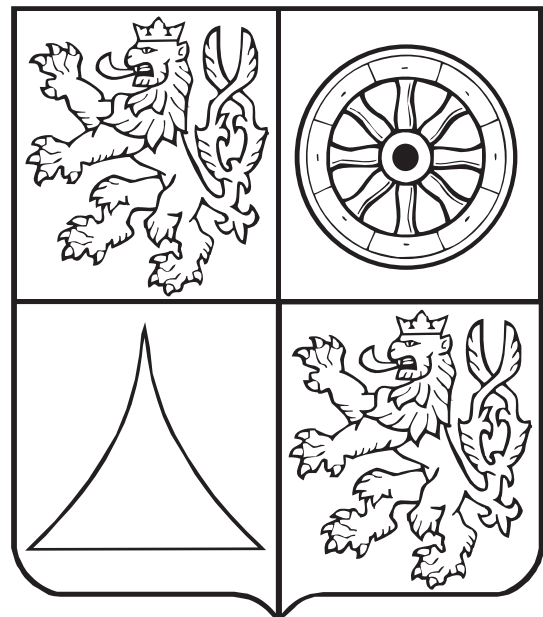

Our logo and flag is a red and blue shield split into four parts, where the first and fourth are the Czech lion, the second is a silver wagon wheel taken from the label given to Liberec character in 1577 by Emperor Rudolf II, the third is a symbol that resembles a significant natural landscape, and building named Jested which also recalls the general nature of the mountain regions. This is actually the ancestral coat of Redern Lords, who ruled the city since 1558 and contributed significantly to its development.

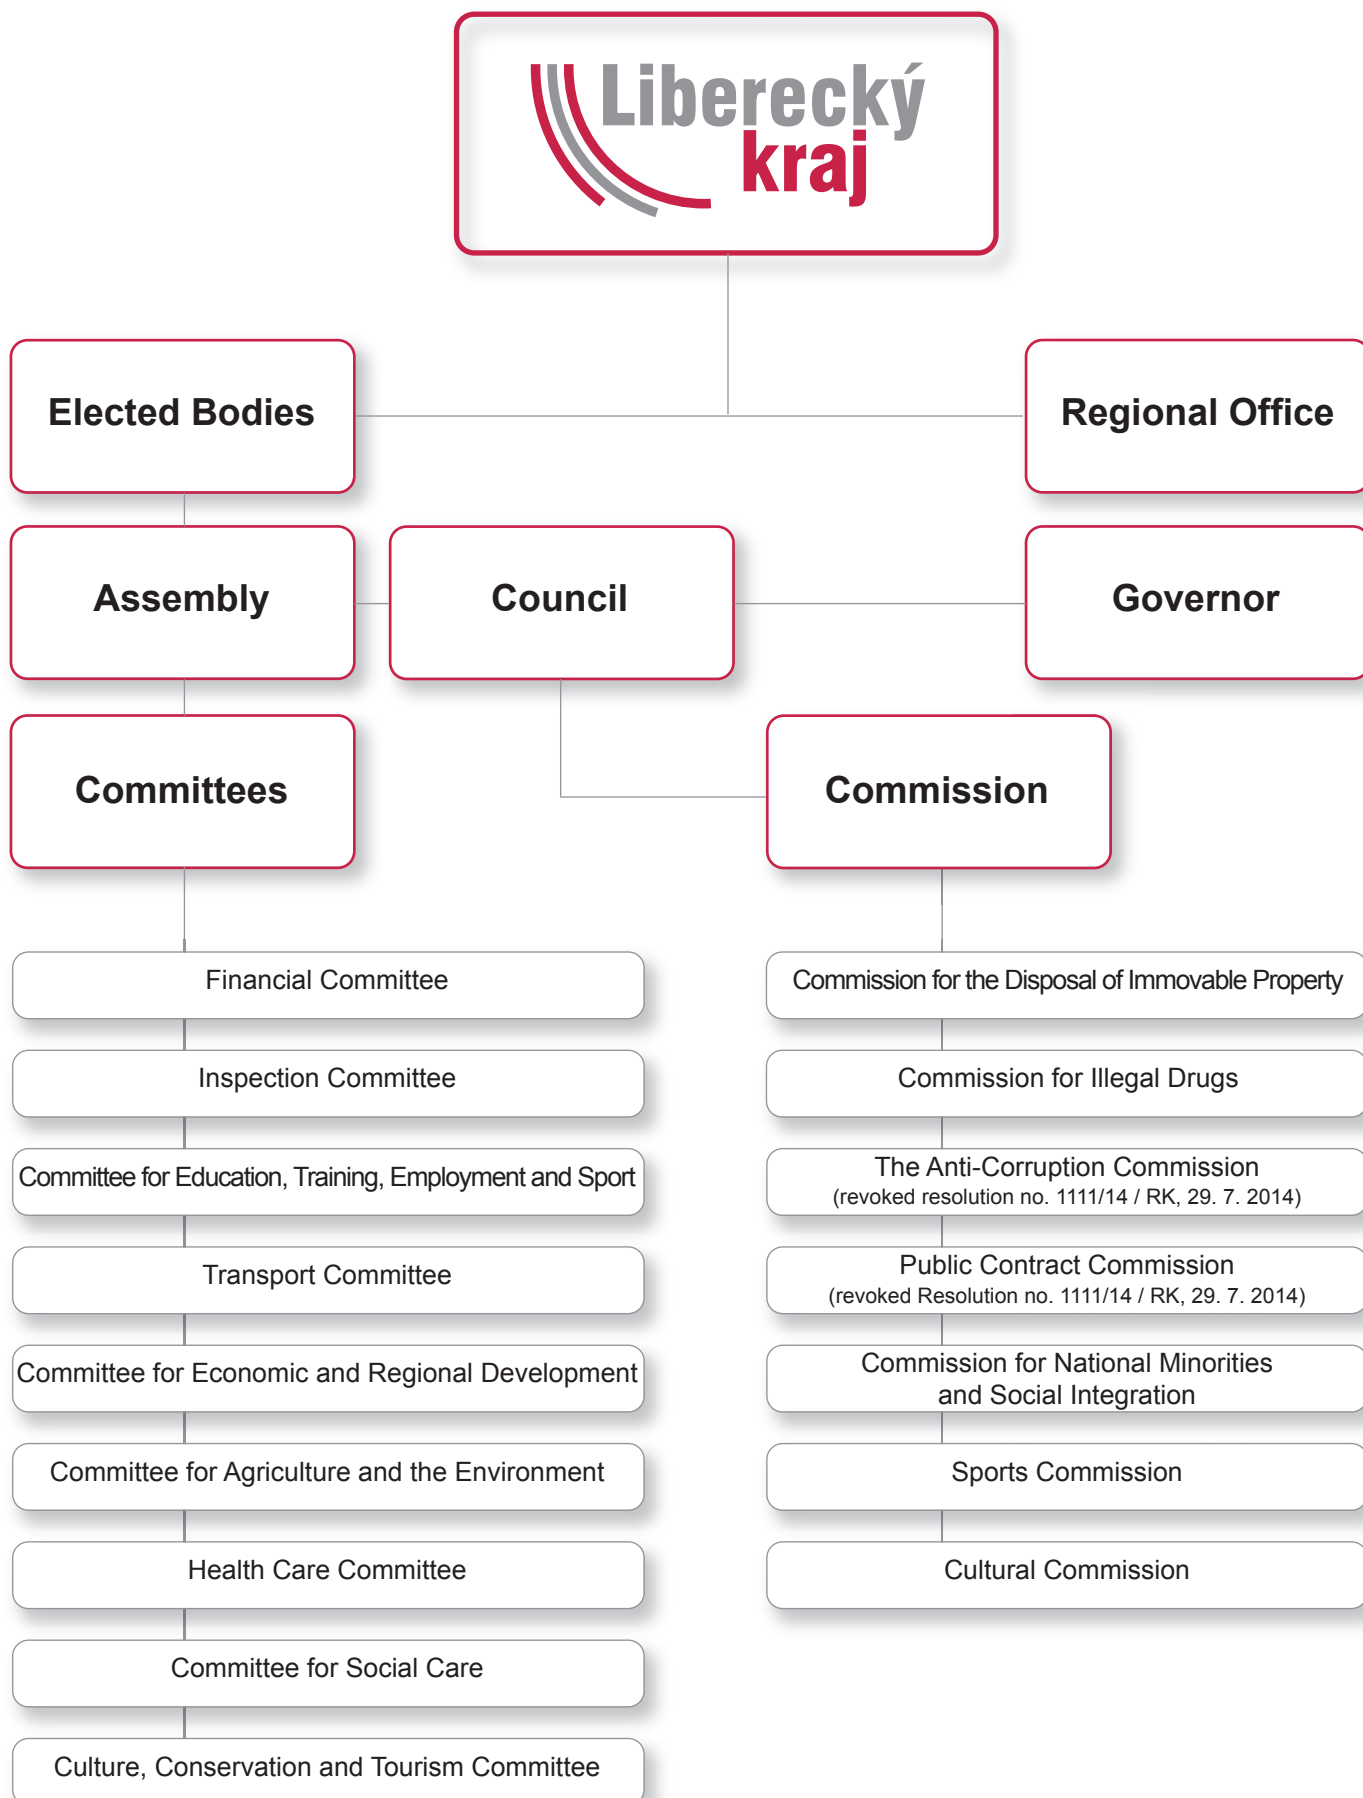

Logo

Our logo was created in the spirit of the motto: "dynamics - stability - and certainty." The basic motif of the logo is a graphic stylization of continuous movement. Symbolizing the dynamic movement of expansion and progress towards general prosperity (red), but cleverly based on a healthy balance and accountability (soothing gray in the middle). Its triple parallel lines logo evokes the mutual coordination of all aspects involved in life with an emphasis placed on the quiet continuous movement towards a goal. She combines graphic hyperbole sportstradition, and nearby sports present and future targets also enhanced support for the spirit of motivation and competitiveness.

THE STRUCTURE OF THE INSTITUTIONS OF THE LIBEREC REGION

LIBEREC REGIONAL COUNCIL 2014 - 4TH TERM

The distribution of seats in the REGIONAL COUNCIL - a total of 9 members

From 26. 11. 2014 county council had only 8 members - on the 25. 11. 2014 Bc. Zuzana Kocumová was relieved of her duties as an appointed member of the Regional Council and Deputy Governor.

5 - Mayors for Liberec Region (SLK) (Governor, 2 Deputy Governors and 2 members of the Regional Council).

From 26. 11. 2014 - 5 SLK (Governor, 1 Statutory Deputy, 1 Deputy Governor, 2 members of the Regional Council)

4 - Change the Liberec Region (ZpLK) (1 Statutory Deputy , 1 Deputy Governor and 2 members of the Regional Council).

From 26. 11. 2014 - 3 ZpLK (1 Deputy Governor, 1 Deputy (vacant), 2 members of the Regional Council).

Furthermore Awards EFQM (European Foundation for Quality Management) "Recognised for Excellence 4 STAR" again as the first regional office in history.

CRISIS MANAGEMENT

Region tasks in the delegated powers of the state administration

Delegation is the main focus the crisis management of the state administration. Activity Department and transferred responsibility is divided into several areas.

The Security Council region. The scope is determined by a government no. 462/2000 Coll. Within this scope is the task of the head of the department, which also performs the function of Secretary of the Security Council, to secure and administer the activities of the Security Council of the Liberec region. Security Council chaired by President of the Region. The Security Council met in 2014, five of which were 3 sessions, mainly on the grounds of military units deployed in the region. The Security Council dealt with issues related to providing crisis management and the IRS in the region. Crisis Management is also the methodological body managing all ten of security councils of municipalities with extended powers in the region.

Crisis Staff of the region. This scope is determined by a government no. 462/2000 Coll. Crisis Management provides staffing, material and technical equipment and other conditions for the activities of the Crisis Staff of the region (hereinafter referred to as KS) as a working body of President of the Region in crisis situations. In 2014 he was KS Liberec region filled staffed and fully functional. Were examined functional content of individual expert groups on the basis of the flood 2013. This in turn led to an update other related documentation. In 2014, it launched operation "Crisis Management Portal Liberec Region". website of crisis management, among other things, taken in the context of Czech - German EU project goal - 3, which was the leading partner of the crisis management. In November, it was also part of the project Aim - 3 made cross-border staff exercises with emergency management authorities of the Federal Republic of Germany, making full use of the portal. The exercise was aimed at activities during torrential rains in border areas and practicing mutual cooperation with emergency management authorities on the German side. Instructor been trained to work with the new portal and in the documentation of pieces, which is part of this portal. All the objectives exercises have been met according to specification and in the activities of the Crisis Staff of the region was to align the activities with German neighbors at the state border. Exercise has been on both sides of the very positive reviews.

Protection of classified information. Competence is defined by Act no. 412/2005 Coll. Tasks in this area involve the conditions laid down by law. This includes

ensuring the safety of space designed for the protection of classified information (OUI), physical protection, accounting and control of classified information, the organization and provision of training of designated persons, conduct verification of eligibility designated persons and ensure protection of information systems in OUI. One of the main tasks was also providing the system operation VEGA-D, which is intended to guide the classified communication. In March, the National Security Agency conducted state supervision in that area of delegated powers. In this context, we were made a comprehensive update of safety documentation office.

Management of municipalities with extended powers. Competence is defined by Act no. 189/2000 Coll. and Act no. 240/2000 Coll., and their implementing regulations. Within the scope of the crisis management organized a total of 5 times and realized methodical preparation of municipalities with extended powers (ORP). The department also performs or provides training and seminars with the emergency management of these municipalities. Part of the management ORP is also monitoring the performance of their delegated powers of the state administration. In 2014, a total of five checks of delegated powers in the field of crisis management, both in Jilemnice ORP Tanvald, Turnov, Semily and Železný Brod. Further, the department conducted a methodological assistance for ORP Turnov.

Crisis and emergency planning. Competence is defined by Act no. 239/2000 Coll., On the integrated rescue system, and Act no. 240/2000 Coll., On crisis management. Activity consists in preparing the measures for prevention and liquidation of major accidents, emergencies and crisis situations. To do this at the regional emergency plans counties and county Emergency Plan, which is updated continuously. The main task in 2014 was the development of contingency plans into actions, verifying their feasibility in practice, a detailed study of workers' crisis management ORP with these plans and their development into the responsibility of the individual members of the Crisis Staff OPR and working groups KS ORP. To perform these tasks at ORP serve as already mentioned above as well as newly acquired "Portal crisis management Liberec region". The portal consists of two parts: public part of the population of the region, which is normally open to the public via the Internet and professional part, which is designed for the emergency management authorities of the Liberec region, other experts and not open to the public. In 2014, audits were planned and methodical drills and response capabilities IRS case of emergencies. This plan was

drawn up exercise at the IRS region in 2014. At the regional level, a total of 11 planned exercises. All exercises were met and held with a good evaluation.

Defense planning. Competence in this field is determined by the Constitutional Act no. 110/1998 Coll., Act no. 585/2004 Coll., Act no. 219/1999 Coll., Act no. 222/1999 Coll., And Government Regulation No. CR. 51 / 2004 Coll., In connection with the separation of powers main task for 2014 was to update Sub-defense plan in connection with the Plan of Defence. The largest part of the updates related to objects of possible attacks, measures to ensure the mobilization measures and catalog of measures for the National Crisis Response System. Crisis Management participated actively in the recast of the directive of the Ministry of Defence for the evaluation, selection and protection of buildings and defensive infrastructure scoping document processing. The department also contributed to Up-grade special software - APV OPSU operated by the Ministry of Defence. They were supplemented with data sheets NSRK for action in crisis situations, according to the current situation. Furthermore, the updated map work military geographic assessment of the Liberec Region. This evaluation is digitized in GIS format.

Economic measures for crisis situations. Competence is defined in Act no. 241/2000 Coll., On economic measures for crisis situations. The activity was focused on checking and completion of the plan of necessary supplies individual municipalities with extended powers, assessing the effectiveness of the requirements necessary for the supply of personnel assigned to the individual ORP Argis information system and the balance of provision of necessary supplies. Plan of necessary supplies has been finalized to match the forces and resources necessary to address crisis situations resulting from the analysis of threats unfinished Type Plans operative part of an emergency plan. In using information support economic measures Argis IS and IS Krizkom were trained new workers ORP. In line with the focus of activity in the area of LK HOPKS was implemented in 3 IS Krizkom exercise for the emergency management ORP. The aim was to train them requiring material resources in case of emergency. Furthermore, the economic measures organized by the department of emergency management training for ORP on the theme: the construction of a replacement bridge in the center of the Ministry of Transport in Kojetíně.

Within the regulatory measures have been recalculated population served by individual food district and established outlets (CSO according to documents on the basis of the last census). In the area of food security specify ORP preferably supplied ingredients and organizations. In the field of oil security update was performed of all existing registration sheets, the Courtyard petrol stations were developed proposals

for the Courtyard provision of new petrol stations, worked with Hyphen Card government material reserves for crisis management bodies and IRS components and demand for fuel ration cards for organizations population. The newly defined courtyard pumping station.

Tasks within the scope of the Region

Crime Prevention. The Liberec region is involved in county-level crime prevention. This region got the opportunity to influence not only precautionary policy on its territory, but also gain government subsidies for preventive projects under the Crime Prevention Programme of the Ministry of Interior. This program can receive subsidies not only the region, but also cities and municipalities in the region. The number of projects in the Liberec region, since she was transferred to the scope of the crisis management within the crime prevention program is growing every year. In 2014, the program involved 22 municipalities.

The grant proceedings were distributed a total of 6,215,000 CZK for 19 municipal projects and one regional project. These projects situational and social prevention. The task of the department of emergency management, namely crime prevention manager methodically helping communities to the processing of prevention programs. At least twice a year takes place methodical consultation for municipalities Liberec region. On the regional level operates under the auspices of the Governor of the Crime Prevention Working Group Liberec region, within the framework of the task the employee department, "crime prevention manager" administer the activities of this group. The working group in 2014 met four times.

Management and administration of the Grant Fund Liberec region. This program replaces the former fund managed by the department of emergency management, it is the former grant fund program G-2, and fund fire protection Liberec region. Like in 2013, it was also in 2014 to considerable difficulties for the department, but also the part of applicants for aid, caused by the fact that the funds were the Regional Assembly to grant fund to be released in mid 2014. Sub-program 1.1 was announced to 27. 6th 2014 (receipt of applications was terminated 22. 7.) subroutine 1.2 to 2. 7. 2014 (receipt of applications was terminated 28. 7.). The entire process of publication and administration shifted into July and August, which is in holiday period. Communications department responsible employees with grant applicants were thus often very problematic and complex.

Under the grant fund program no. 1. "Support for the development of fire protection in the Liberec Region" grants were provided:

- Municipalities - the subroutine no. 1.1 "Supporting fire protection units Municipalities Region "(with the

emphasis on a unified system of warning and notification - especially sirens, additions and repairs end elements of rotary sirens, renewal, amendment and repair of fire safety, restoration and repair of mobile firefighting equipment and repairs, alterations and construction of buildings Fire protection) were divided total 5,100,000 CZK - Supported a total of 87 projects from 67 municipalities,

- corps of volunteer firemen municipalities in sports and cultural activities - to the subroutine no. 1.2 "Sup-consult the Association of Firefighters of Bohemia, Moravia and Silesia Liberec Region "(with an emphasis on organizing summer camps and camps for young firefighters, work with children and youth competitions, including children and young Deze and including the year-round activities for young firefighters organizing competitions and adults) has been allocated the amount of 900,000 CZK. Given the above, However, problems have been exhausted, only 803 190 CZK. Unfortunately, there were only supported 57 projects. Undrawn funds will be used in 2015.

Management and administration of the Emergency Fund for the Liberec region. Crisis Fund in 2013, as well as all other funds canceled. The balance of the Fund was converted into reserves to cover expenses in connection with the crisis. Based on the recommendations of BR LK 3. 10. 2013 was a crisis fund to January 1, 2014 was re-established (USN. No. 1600/13 / RK and 385/13 / ZK). At the same time the statute was approved by the crisis fund, which are defined as financial resources to fund current calendar year - are made up of the balance of

the Fund at 31 on the 12th of the previous year and an allocation from the regional budget in the amount of 5 mil. CZK. The actual fulfillment of the budget crisis fund, there was practically in March 2014 (USN. No. 49/14 / ZK of 25. 2. 2014 - Approval of the allocation of 5 mil. CZK To fund the budget).

Management and administration of non-investment subsidies to municipalities. Every year, the region targeted investment subsidies Municipalities expenditure Fire Protection Units municipalities (county funds transferred from the Ministry of Interior, respectively. Budget of the General Directorate of Fire Rescue Service of the Czech Republic). In 2014 there was on the part of the Ministry during the year to increase the volume of these funds (for an amount of 345,000 CZK). A total of 99 grants were given to municipalities in the Liberec region totaling 3,312,000 CZK.

Solving leakage of hazardous substances.

Grants from the crisis fund made during 2014 on the basis of applications submitted and based on recommendations BR LK.

Within these days series of events for the general public took place on the German and Czech territory.

Orenburg region Russia

(www.orenburgobl.ru)

Nový Bor found on the Orenburg region partner city Mednogorsk (an agreement between the two cities was held on June 16th 2007 in Mednogorsk). Representatives of the Orenburg region and the Liberec region have expressed mutual desire to establish contacts especially in the area of economic development, investment and education. In May 2012, the Orenburg region signed a cooperation agreement. On the occasion of signing the document, a meeting with businessmen Liberec region with the participation of representatives of the Russian Embassy, Consulate General of the Russian Federation and the Commercial Council of the Russian Federation in the Czech Republic. It was also signed memorandum between the Technical University of Liberec and the Orenburg State University. In the period 7th - 10th October 2013 were visited political and business missions for the Liberec region in the Orenburg region.

Prešov Self-Governing Region, Slovak Republic

(<http://www.vucpo.sk>)

Cooperation with this country began in 2004 when November took place on the territory of Slovakia storms that inflicted enormous damage. Liberec had donated and thus contribute to rebuilding devastated Tatras. Although the official document on cooperation is signed every year, both regions taking part in tourism fair held in the territory of partner countries: at the end of January, the Liberec region presented on the stand of the Prešov self-governing region in Bratislava, and will be present at the end of March at the Fair Jablonec nad Nisou.

EU REPRESENTATION

Liberec region intends to fully exploit all the advantages of the Czech Republic's membership in the European Union. This requires timely and accurate information about what is happening in the European institutions and currently primarily on the preparation of rules drawing of European funds in the next period 2014-2020. The aim of the Liberec region is also active exchange of experiences with other European regions.

Representing the Liberec region in the European Union includes the following activities:

- participation in professional European debates on current topics, conferences, exhibitions, events, presentations, etc .;
- acquisition and exchange of information, experience and contacts with foreign regions in areas of interest LK;
- cooperation with relevant regional and coordination within the European Grouping for Territorial Cooperation (EGTC);
- assisting in establishing the principal and interregional cooperation, ie. Monitoring offers for cooperation, own initiative, project preparation and implementation, etc .;
- providing service for work in the Committee of the Regions governor, ie. Preparation of documents, analysis of the topics discussed, preparing the agenda, the visit to Brussels, accompanied, if necessary. Interpreting etc .;
- monitoring the activities of other EU institutions, according to current needs LK;
- provide administrative and organizational facilities in Brussels for the Liberec region and its domestic partners;
- monitoring current challenges and offers community programs for project cooperation, including providing information about the list of forthcoming events;
- provide training for employees assigned to the regional office principal itself in this area;
- Ensuring all organizational activities of the Liberec region in Brussels;
- providing all necessary matters relating to the residence agents or employees LK in Brussels, for example. Airfare, accommodation, etc.

Euroregion Nisa, which comprises of 130 villages, the Liberec region and the Chamber of Commerce won a tender for work in the region. they also work closely with other entities including The Technical University in Liberec). The contact person responsible for execution of the contract is Dr. Pavel Branda.

An important body for representing the interests of the region, the Committee of the Regions. Governor Martin Puta since November 2013 as a member nominated by the Association of Regions of the Czech Republic. For the Union of Towns and Municipalities is a member Pavel Branda (deputy mayor of the village of Rádlo). In 2014 the agency participated in the preparation of EU quality framework for anticipating change and restructuring (Pavel Branda was the rapporteur). Liberec region and has been successfully presented in Brussels (hearing the opinions of the expert committee for economic and social policy - ECOS, public hearings, presentation of the opinion at the plenary session of the Committee of the regions, the participation of expert Mgr. Michael Otto - Head of Regional Office ORREP LK - in negotiations). Liberec region also participated, along with the Lower Silesian voivodship for organizing Saxon Christmas markets in Brussels. Representatives from the region have managed to succeed with a proposal to hold an external COTER seminar (for Territorial Cohesion Policy) focused on current challenges border regions. The seminar will be held in September 2015 in Liberec. For subjects from the Liberec region were held information seminars about community programs and funding opportunities for municipalities.

SPATIAL PLANNING AND BUILDING REGULATIONS

Liberec regional planning offices consist of Regional office of Liberec (hereafter KU LK), The Department of Planning and Building Code (hereafter OUPSR), and the Department of Spatial Planning (hereinafter OUP).

The most important act of urban planning Liberec region in 2014 was the approval of reports within the county council on 25th February 2014. The LK ZUR report drafted by the department of urban planning is a mandatory document processed by the Building Act. Development and approval of reports ZUR LK launched a major update of the county zoning documentation. Work started at the end of 2014 after approval in the context of public procurement of small scale selection of professional designer companies that worked alone in updating documentation ZUR LK. The processing will take place in several phases of the Building Act and the first draft for negotiations with the authorities concerned should be available in 2015.

In 2014, OUP continued to work on an important document "Strategy of Tourism Giant Mountains". This should streamline the development of tourist activities in extremely loaded Jizera and protect its natural values, namely dissemination of these activities into yet discovered less peripheral areas. Especially in terms of Frydlant region south and east of the Black Well ridge of Jizera mountains with links to areas in Poland. In the summer, the project team conducted detailed field surveys, and it continued discussing work with representatives of municipalities and other key players in tourism. Work on the Concept will be completed in summer 2015, and will serve as a basis for land use plans of municipalities, departmental plans and policies relating to tourism, public transport and others. For now processed documents can be viewed at <http://jizerky.kraj-lbc.cz/>.

In 2014, OUP continuously updated its database of spatial analytical data region (hereafter UAP LK) in a geographic-information system (GIS). UAP LK regularly updated sets of information about the area under the Building Act, which are used mainly for creating ZUR LK and zoning plans. The last completed documentation took place 30. 6. 2013. All work is handled by our own professional staff rather than using external processing firms, thus saving considerable costs.

Methodical and professional assistance to municipalities Liberec region especially zoning authorities (hereinafter UUP) is performed continuously. OUP annually organizes regular meetings (at least 2x per year), not only for the UUP and municipalities that perform planning activities of its own employees (§ 6 para. 2 of the Building Act), but also to the authorities concerned and designers zoning plans.

In 2014, the system works OUPSR OUP in coordination with other components of KU LK managed to meet the target of 100% coverage of the state of the Liberec region spatial plans, which were acquired in 2014, the 24th already 133 municipalities in the Liberec region from a total of 215 has acquired land use plan issued according to new Building Act in force since 2007. For eight years, we managed to cover most of the region a new planning documentation which meets the increased demands of new legislation.

With a view to continuous improvement in the quality of public administration services in the Liberec region, and maintain an adequate, provided by Department of Planning and building regulations Liberec Regional Authority municipal building authorities, for which also acts as an appellate body, methodological assistance. One of the ways this methodological assistance and soon organized a professional seminar entitled "Building Act from A to Z". It will be a two-day lecture course which aims in the context of the individual provisions of the basic building regulations, dismantle all kinds of problems arising in the practice of building offices, eliminate the most common errors identified by the Appellate Body's own activities and also provide insight into upcoming changes in legislation. Lecture seminar will be led by an experienced lecturer in the field of construction law, Mgr. Marcela Valkova, who is Head of Building Regulations in the Regional Authority of the Liberec region and Ing. Martina Polakova, Deputy Head of the Building Regulations. Since it is already a special seminar very interested and even the general public had planned a repetition of this autumn.

It is also necessary to mention the methodical collaboration of the Department of Spatial Planning and Building Regulations with its own library for its members, through workers' participation in seminars organized by the Department CKAIT the issue of the application of the Building Act in practice, both in territorial planning and the Building Code. Such cooperation contributes not only to the professional public awareness on the issue of the Building Act and its implementing regulations in practice authorized architects, engineers and technicians, but also to unify their procedures within the Liberec region.

HEALTH

Development of health services, promoting quality of care

Liberec region supports the development of health services and thus contributes to providing increasingly higher standards of quality of care. In 2014, the Liberec Region has invested in operations, support and development of health care 200 587 378 CZK.

The financial volume is primarily included:

- 1) 145.170.000 CZK
 - contributions to the operation of the subsidiary organizations
- 2) 5.000.000 CZK
 - subsidies to ensure the treatment of people under the influence of alcohol and intoxication,
- 3) 11.605.586 CZK
 - subsidies for the provision of emergency medical services,
- 4) 37.070.000 CZK
 - other subsidies to health facilities
(see Table Examples of major subsidies)
- 5) 1.741.792 CZK
 - Liberec Region Grant Fund.

The Department of Health in 2014 provided a financial contribution to the second phase of the project insulation of selected buildings Hospital and Polyclinic Česká Lípa. Insulation of buildings was completed in September 2014. In this event the region provided a total of 72,740,000 CZK. Furthermore, the hospital has completed an extensive renovation of X-ray equipment.

The Regional hospital (KNL) was built in 2014 and put into operation a heliport. A merger between Liberec regional Hospital and Trutnov Hospital had a significant economic and professional effect for the hospital in Turnov

Zwickau hospital for respiratory diseases among the stable governmental organization. In 2014, the organization ended up managing a profit 6,706,193 CZK. which will be used to modernize the rooms in the children's hospital..

Emergency Medical Service LK continued austerity measures, which resulted in a reduction in consumption of operating aid of 14,666,500 CZK compared to 2013. Emergency Medical Service LK continues to project a standardized project Regional Emergency Medical Services Liberec region, within which there is a relocation

of the medical operation center into space with modern technology (Building "Neli" within KNL). At the end of 2014, we launched a public tender for "Modern vehicles EMS LK including technological and technical equipment" for the purchase of 20 pieces of modern sanitary.

Health policy - support for public health

In 2014, the Program for the Ministry of Health, Physical Education and Sports, the Department of Health Administration, an allocation of 1.5 million CZK. It was distributed to applicants for a grant in support of recovery and reconditioning stays for disabled / physically handicapped persons and support preventive and treatment projects. In support of persons with disabilities was allocated 383 514 CZK.

In the implementation of the Long-term program of improving the health status of the population of the Liberec region it was realized many interesting events and projects. Particularly the action "Let's live healthily" and "Week of a healthy diet" had a great response in Jablonec nad Nisou. Visitors throughout the day could use a wide variety of physical activities under the guidance of experienced physiotherapists from the Rehabilitation Hospital's Department of Jablonec nad Nisou, demonstrations of proper dental care, leisure time activities and their importance in the prevention of negative social phenomena, how to prevent injuries at work, at home and on vacation, lacked even the topic of smoking prevention and cessation methods. The whole day was available to offer healthy food with recipes and finished menu.

PHYSICAL EDUCATION AND SPORT

Liberec region council in 2014 approved a strategy for promoting sport and physical education in 2014 - 2016. On the basis of the material annually for Sport and Physical Education allocated in the budget of the Liberec region for at least 30 mil. CZK, which will be distributed according to the priorities identified in three areas - endowment fund, direct support to sports organizations and activities provided directly by the Liberec region.

Under the grant program fund Liberec region no. 3 - Program Ministry of Health, Physical Education and Sport in 2014 was declared one call in subroutines 3.4 Maintenance, operation and rental of sports equipment, 3.5 Regular activity by sports organizations 3.6 Sport handicapped, 3.8 Sports event and 3.9 School sport and physical education. Overall in this call supported 329 projects and allocated funds amounting to 14,760,000 CZK.

The Ministry of Health, Physical Education and Sports also supported the Physical Training and Sports in the Liberec region called. Direct funding from the budget of the Liberec region. There were supported 62 other projects in major sporting events and major sports venues

sports clubs, and that the amount of 10,520,000 CZK. The most significant event was financially supported in 2014, for example Regional League schools 2014 CT AUTHOR CUP 2014 Memorial Ludvika Danka 2014 or Czech academic games.

Another part of the funds in the amount of 1 mil. CZK was determined to participate in sports teams at the Liberec Region VI. Games Winter Olympic Games for children and young people of the Czech Republic, which took place in the January deadline in the Vysocina region. Liberec region reaffirmed the role of favorite and won the overall ranking of regions with high point ahead of athletes from the South Bohemian and South Moravian region. Athletes from the Liberec Region received a total of 38 medals, of which 15 were gold (2 alpine skiing, 3 cross-country skiing, 3 biathlon, 3 ski orienteering and 4 snowboard), 13 silver (1 Alpine skiing, 5 cross-country skiing, 4 biathlon, 1 ski orienteering and 2 snowboard) and 10 bronze (1 Alpine skiing, 5 cross-country skiing, 2 biathlon, 1 speed skating and 1 snowboard).

LIBEREC REGIONAL MANAGEMENT FOR 2014

The draft budget of the Liberec region in 2014 was based on the source region defined by its possibilities income framework, which followed the achievements of the tax revenues of the region in 2013. This decision was chosen with a view to calming and stabilizing the development of the Czech economy and also because there were no significant legislative changes that would have a negative impact on tax revenue counties, as was the case in previous years.

It is generally known that tax revenues for the region are the decisive revenues from which are then reimbursed expenses associated with the provision of public services, which in the case of regional funding represent bus and train services within the transport needs, summer and winter maintenance, repairs and investments road II. and III. Class, ensuring the operation of the region established high schools, retirement homes, social care institutions, museums, libraries, galleries, environmental education centers, hospitals respiratory diseases and emergency medical services for which the county also cover necessary repairs and renovations.

In line with the medium-term budget outlook of the county budget for 2014 designed to make its spending limits do not exceed the adjusted revenue framework and was thus fully respecting the principle balance the provincial budget. Expected tax revenue, including revenue from management fees accounted for in the approved budget of the Liberec region for 2014 at 2,122,000 CZK. Following the positive developments in the selection of individual taxes during 2014 and in connection with the county implemented additional expenditures beyond the approved budget, especially in the transport sector during the year have increased tax revenues of 82,787 CZK. The total volume achieved in tax revenue for the region in 2014 reached the amount of 2,377,698 CZK.

In addition to the tax revenue received affected the regional budget funds during 2014 significantly and received specific subsidies from the state budget. These were mainly subsidies provided by the Ministry of Education, Youth and Sports on direct training costs associated with the financing of schools and school facilities established by regions, municipalities

or associations of municipalities in the amount of 3,367,441 CZK, subsidies for the funding of private schools in the region of 143,485 CZK and subsidies in support of school psychologists and special educators including the increase of salaries of teaching staff and employees in regional education totaling 27,150 CZK. Ministry of Transport was once again in 2014, the county offered a contribution to cover losses from carriers operate public rail transport in the region of 92,566 CZK. With regard to the scope and amount of damage caused by floods in August 2010 and continued county in 2014 for their removal with the financial support of the Ministry for Regional Development in the amount of 71,658 CZK. State Fund for Transport Infrastructure, then county region received funds to repair roads II. and III. classes affected by floods in 2013 in an aggregate amount of 135,982 CZK.

1. 1. 2014 An amendment to the financing of the provision of social services in the regions, which were in 2013 paid directly from the budget of the Ministry of Labour and Social Affairs. Since 2014, these services once again funded through regional budgets. Region on their security in 2014 received from the aforementioned Ministry grants totaling 144,447 CZK. A further 45,826 CZK admitted to the regional budget in 2014 constituted the other subsidies provided by the state budget through other central government bodies, among others. Ministry of Environment, Ministry of Agriculture, Ministry of Culture and the Ministry of Finance in the state subsidy policy.

All of the above financial resources provided by the county in the form of targeted subsidies are in their use of county expenditures determined by their specified purpose, which is strictly defined by the different providers of these funds.

During the year 2014, the county also provided advance payments and paid retroactively for projects co-financed from EU funds and the Solidarity Fund totaling 271,901 CZK. To partially cover the regional office transferred ensuring the performance of county government received a contribution directly from the state budget in the amount of 61,072 CZK. Total revenue in the region in 2014 and, in aggregate volume reached 7,020,574 CZK.

Within the realized expenditure covered region of the own revenue contributions to the functioning of allowance organizations in the sectors of education, social welfare, transport, culture, environment and health in an aggregate amount of 868,727 CZK, the needs of the rail and bus transportation services in the amount of 540,844 CZK (excluding government subsidies 92 566 CZK to cover the losses of passenger rail transport), direct their own capital expenditures for 536,446 CZK and secured financing projects co-financed by the European Union including ineligible expenses in an aggregate amount of 111,072 CZK. Activities of the council and the regional authority, including their own performances powers in the region was covered by funds in the amount of 304,840 CZK.

Region while the form of subsidies supported by its own means individual entities whose activities are connected mainly with the development and support of the Liberec region. These included financial support for theaters FX Šalda and Naive Theatre, promote integrated transport system in the region, promoting the sport including sports arenas and major sporting events. Region also participated in the financing of regional libraries, institutional acute emergency or expenses associated with the treatment of drunk people. All these activities represented a volume of 69,304 CZK.

At the same time the region funded by its own resources and expenditures made through the region established monetary funds, through the budget of a region involved in non-investment grade and investment development of the region. Their substantive focus and volume-largest cash endowment fund is the county fund, which centralizes most of the resources spent on subsidizing policy, and region in which it was in 2014 allocated the amount of 77,331 CZK. In the forestry fund then was allocated 4,006 CZK and in emergency fund amount 5,500 CZK.

The total volume of spending in the region in 2014 reached a volume of 6,996,076 CZK. When compared to the earned income counties in the amount of 7,020,574 CZK represents management region for the year 2014, the positive balance of revenues and expenditures in the amount of 24,498 CZK.

Balances on current accounts elementary Region, 31 12. 2014 totaled 1,011,668 CZK current account balances and funds of the region amounted to 84 931 CZK. The amount of these balances is to some extent

influenced by, among other things. Advance payments received in previous periods for the implementation of transport constructions financed from the Regional Operational Programme, advance payments from other governing bodies of selected operational programs such as. To implement Global grants, projects in the field of education, and totaling 107,322 CZK that spending on these projects will be implemented in 2015. The remainder of the balances also covers a large majority contractually bound actions and projects, especially those co-financed from EU funds, the implementation did not take place in 2014, but should also be implemented in 2015.

Further information and analysis on economic region for the year 2014 are shown in the table "Balance of revenues and expenditure of the Liberec region for the year 2014", "Overview of the shared taxes and fees on the total actual tax revenues of the region in 2014," and the chart "Share of individual shared taxes and taxes in total tax revenues of the Liberec Region in 2014".

Farming region for 2014 is reviewed by the Ministry of Finance of the Czech Republic. Of the current course it suggests that the management of the Liberec region for the year 2014 have been revealed that the final outcome of the review will become part of the final account for the region in 2014. Final Account of the Liberec region for the year 2014 will be submitted to the authorities in the region to discuss in June 2015.

Above and beyond its legal obligation to review economic regional Ministry of Finance has concluded an Liberec credit rating company Moody's Investors Service Limited, which performs an annual analysis of financial and non-financial flows and commitments of the region on the basis that confers rating. Based on the results of these analyzes it was also in 2014 confirmed the county local, national rating of the degree Aa1.cz with a stable outlook, which is the second highest grade.

INVESTMENTS AND REAL ESTATE ADMINISTRATION

Department of investments and real estate management finished 810 contracts within this period, this number is a long-term upward trend. Furthermore, donations for the castle complex in the city of Doksy, children's traffic playground Statutory City of Liberec and the purchase of the premises of the former VÚTS to build a European house were realized. Also provided for other departments approval for consideration and incorruptible transfers of surplus military property owned by the Liberec region.

The department of public procurement contracts implemented 95 sub-limit and over limit. There were 59 open procedures, simplified sub-limit of 20 management and 16 negotiated procedure without publication. Furthermore, it launched 263 small scale public contracts. The modern form of electronic auctions held 7 competitions. The starting price was 2,096,920 CZK and the subsequent savings of 4.63%. For budgetary organizations were carried out 3 below-threshold public contracts. On Public Procurement below the threshold and above the thresholds and public procurement of small scale works (investment and road construction) spared in 2014, Liberec region 151 205 664 CZK without VAT

The department of investments realized investment projects financed from the budget of the Liberec region, further actions co-financed operational programs ROP, IOP, OPE. In 2014, the investment department administered and implemented a total of 34 tenders in public procurement of small scale (hereinafter "VZMR ") for supplies, services and works.

One of the most important projects implemented in 2014 was the hospice for LK at 109 mil. CZK, Regional Museum and Gallery in the Česká Lípa - A total renovation of roof cladding for 22.8 mil. CZK. Further projects to improve thermal properties of building structures from the Operational Programme Environment - eg. Secondary school of gastronomy and service, Liberec, Dvorská - Hall C, D, E, F for 11.25 mil. CZK and the Centre for 11.7 mil. CZK. High School of Engineering, construction and transportation, Liberec, Truhlářská - Pavilions A and B for 15 mil. CZK; High School farm and forestry, Frýdlant, Bělíkov for 16.2 mil. CZK; Gymnasium Česká Lípa for 14.4 mil. CZK. Among the notable buildings include the implementation of the project "Transformation of the residence facilities Mařenice" - construction of new facilities in three locations - Zwickau, Nový Bor U Theatres and Nový Bor U Stadium in a total volume of about 58 mil. CZK. Another important project for LK, which began in

2014 to prepare, the reconstruction of the building "E" at the office building - the former building VUTS of 66 mil. CZK solutions and overall conception of the former VUTS. In 2014, it was implemented or started to implement a 17-LK to buildings and these buildings has invested a total of some 116 mil. CZK for projects co-financed from the EU budget should LK 2014 prepared about 400 mil. CZK.

INFORMATICS

The Department of Computer Science provides a stable operation and management of about 500 workstations, including laptops, more than 100 mobile communication devices (i-Pad, i-Phone, "smart phones"), operating in the main and backup server room, which involves about 70 virtual servers, 11 physical servers and large-scale production and backup data storage.

The core priorities of the department include the development of e-government in the Liberec region. The region was able to launch in 2014, an important project "Development of eGovernment in the Liberec Region", which allows the region and its organizations on its territory to ensure much higher quality and efficiency of public service, harmonization of processes and procedures, better communication, integration and data usage. In 2014, a contract was signed with Autocont to "Complex supply technologies and services in the development of e-government in LK" a contract with ELSYST Engineering to "Digitize its library collection."

The entire project consists of component parts:

Technology Centre (TCK) - consists of the technological base of hardware, software applications for its own operation. ICT infrastructure will be created that will allow to operate the services needed by municipalities and cities in the region.

Electronic filing service (ESSL) - In addition to providing a sufficient capacity and a guaranteed repository of documents related to public administration, ensures ESSL and electronic communications of public authorities such as. Using the data box system. ESSL is established for the county and it established and founded organizations or municipalities type I. and II.

Data Warehouse - Data storage is a method to organize large amounts of data from different sources so as to be accessible and comprehensible to users engaged in the subsequent analysis.

Internal integration office - solution ensures efficiency and consistency of software systems to make work processes across a number of systems were effective and mutually capable of data exchange both within the office and outward eg. The basic registers.

Digitizing and storing - Mass storage. In a defined range will benefit from the regional authority, organization counties, cities, municipalities and their organizations. Allows management, storage, backup, distribution according to agents.

Public Administration Digital Map (DMVS) - output will be a comprehensive digital map work large scale within the entire territory of the Czech Republic, will serve as

a reference basis for the agenda of public administration. Successful completion of the entire project is expected in November 2015.

Another future project is the expected challenges of No.19, regional eGovernment services. Liberec region decided to implement the following three activities - security infrastructure technology centers, development of eHealth and Development of regional technology centers. The aim of these projects are:

- Creating a system for secure access to the medical records for healthcare facilities Liberec region with acute inpatient care.
- Computerization of processes and super-specialized care (to extend the functionality of KIS the need for specialized centers) in the district.
- Development of TCK archiving of medical records for hospitals Liberec Region providing acute patient care.
- Improving the quality of security services TCK network infrastructure of the region.

An integral part of the IT Department's Contact Center. We all are well aware, as it depends on the first impression, and the contact center is in most cases first, what is a citizen or visitor to the office encounters. The contact center certainly contribute to a good perception of the office.

The IT Department will in 2015 continue the trend and implementation of the above projects contribute to raising the quality of services in the region.

2014 was rich in a variety of activities in both the individual and the delegated powers of the Ministry of Environment and agriculture.

In March 2014 near Lake Macha the EUREX - Net Nisa conference took place, which brought together experts in **water management** of the 3 Euroregion Neisse states, where they were informed about the necessity of mutual cooperation in addressing water management of their common borders and defined the main points of a common way forward in the implementation of the Water Framework Directive river basin Lusatian Nisa.

In the autumn of 2014, after completion of the catch 12. 11. 2014 was an investor ANCLP Prague initiated on the basis of a valid permit remodeling composite object for Lake Mácha water project entitled "Repairing the discharge device NPP Swamp", which should be completed by May 2015 not to impair shipping and the recreational season. The contractor is AQUASYS a. s. r. o., Žďár nad Sázavou.

Under the approved changes to the plan of liquidation of workings DHI related operations for the years 2012-2040, based on the granted permit to remove the construction of water works Central decontamination station, at the same time lead to the liquidation of the premises Mine Hamr. Based on our request the Department ES MZP announced a small contract for the removal of the wells, which were left at the site Prague Castle after completing maintenance work. The project was won and completed by the Prague company Forsapi s.r.o.

Continuously ADDING new waterways TO floodplains, designed by the areas managers.

On November 13, 2014 with the participation of foreign partners there was border exercise solutions called "Voda (Water) 2014". Exercise participated Flood Commission of the Liberec region, bodies of crisis management and integrated rescue system.

December 22, 2014 was the date of the publication of the draft individual plans as part II. The planning phase of treatment (national river basin management plans, plans sub-basin management plans and flood risk) to 6 months for written comments by water users and the public on the official notice board and the regional office.

In the field of forestry were organized 3 workshops for traditional professional forest managers, which took place in Semily, Liberec and the Česká Lípa. Participants were familiarized with the latest information from the

law and from the area of regional, national and European subsidies. During the year at Northwest Novy Bor 21 approved forest management plans, which determine the economy affected forest estates for 10 years. The implementation of EU legislation into national law came into force regulations concerning the issue of marketing of timber and timber products on the market.

This led to the opening of a new administrative agenda, which included the insertion of data into forest management plans of the central register of serving the needs of the control system of due diligence for operators.

During the year of the Forest Fund under the contributions to forestry settled 153 claims and paid 3,966,336 CZK, in particular reforestation ameliorative and reinforcing wood species, providing forest and tending young forest stands. Hunting conference focused mainly on the issues of health care and the impact of the new Civil Code on hunting was held in the multimedia hall of the Liberec Regional Authority in Liberec.

In the field of **nature conservation and landscape** continued to the last phase of the project "Implementation of the Natura 2000 network - Part 2" funded from the Operational Programme Environment. Towards the end of the year, then the project is successfully completed. As well was successfully completed and the project "Management of invasive species in the Euroregion Neisse" funded by the Objective 3 Czech - Saxony.

As part of the administrative activities continue announcement was in the process of European significant areas (SAC) NATURA 2000 as a specially protected areas, including discussing plans for them. It can say that in 2014 this process was completed successfully announcement last EVL as specially protected areas and natural monuments meanders Ploučnice at Mimoň and natural monuments Niva Ploučnice at Žizníkov. Nature trail was reconstructed on the Rieger Trail, including the installation of so-called. Trauma points designated by the IRS for the Liberec region. Was performed dosadba Hornbeam alley within the park in Zahrádky the Czech Lipa, which is part of Sites of Community Importance "garden" designed to protect the hermit brown. In 2014

it was also implemented the project "Treatment and stabilization of the Waldstein alley" in the village garden, which was funded by the Operational Programme Environment.

Interesting projects to support protected species of animals were carried out, for example. Pool was built for amphibians in the cadastral Vítkov u Dobranov (the territory PP Niva Ploučnice at Žizníkov) and two pools in the cadastral Jilemnice. In addition to routine administrative operations, which related to the greatest extent protect habitats of specially protected species of fauna and flora in connection with the authorization of construction activities, the nature conservation authority strongly focused on methodological help lower government authorities. It is worth mentioning, except methodical sheets for cutting non-forest greenery created for the community, especially expert workshop on "Accountability in nature and landscape protection", which met with a very positive response from the participating municipalities and other bodies of nature protection.

In the field of **waste management** continued in 2014, work on the project with the company EKO-KOM "Intensification of separate collection and ensuring utilization of usable components of municipal waste, including packaging their constituents", which contributes to the consistently high levels of efficiency sorting of municipal waste in the Liberec region. As part of this project was another year of competition towns and cities "Gold bin" and continued implementation of the school program to selected schools LK in relation to activities undertaken in previous years. In 2014 also, a collaboration with companies Asekol Ltd. and ELEKTROWIN Inc. for projects supporting the return of electrical equipment. Liberec last year realized pick one half navezených waste illegally in the village Bulovka on Frydlantsko. Specifically, this means that the energy recovery was transported 4,500 tons of waste.

Air protection authority of the Liberec Regional Authority throughout 2014, actively collaborated on "Update Program to Improve Air Quality Northeast zone" (ie. Liberec, Hradec Králové and Pardubice). Processing of this program to improve air quality is the responsibility of the Ministry of the Environment. The medium-term strategy will be submitted for approval to the Government for next year, and then the program will improve air quality, issued by the Ministry in the form of general measures. The section of state administration continued last year increased intake of applications for approval of stationary sources of air pollution caused by legislative changes.

The **IPPC** were conducted in cooperation with ČIŽP integrated control and review of integrated permits issued in accordance with the approved plan of inspections, which took place on a total of 21. In the area of prevention of major accidents was in 2014 in the framework of spot checks conducted methodical assistance to operators who handle hazardous chemicals substances and under this methodological assistance, a total of 16 inspections. In cooperation with ČIŽP OI Liberec were performed 4 integrated controls. In December 2014 took place at the factory in Hajništi, STV Group as the meeting of the Security Council of the Liberec region in order to control operation of the equipment in which it is carried storing explosives.

In 2014 OZPZ his opinion supported 145 projects requesting subsidies from the Operational Programme Environment. Most applications were directed in improving air quality - particularly in the implementation of energy saving, changes to heating sources and reduce dust in towns and villages. Further support for projects related to selective waste collection, implementation and reconstruction of playgrounds in natural style, promote environmental education and awareness, revitalization of residential green spaces and parks and improvement of nature and landscape. Was also positive in terms of environmental impact assessment supported 36 projects included in the ROP NUTS II Northeast, especially to the projects of reconstruction of roads II. and III. classrooms and health care facilities. Department staff regularly attend meetings with building authorities and urban planning agencies with updated information in the environmental impact assessment.

In the field of independent competency OZPZ focused on the coordination of environmental education and awareness in the Liberec region (hereinafter referred to as CEPA), methodically drove the Centre for Environmental Education of the Liberec region (hereinafter referred to as ground beetles), a project coordinated by the Agricultural Advisory and Information Centre LK and administered the application of various subjects Financial support from the Grant Fund LK and LK Water Protection Fund. In 2014, it was from grants administered OZPZ supported 85 projects totaling 29,185,661.00. CZK In the traditional calendar of educational events department, prepared in collaboration with the Regional Agrarian Council of LK and a number of other NGOs were realized 28 shares of agriculture and 24 shares from the field of environmental education. Among the most significant was the 12th county harvest festival Semilech arranged

in conjunction with the 11th annual Semily loaf, Day regional food conference on environmental education at primary schools and kindergartens and Earth Day celebrations in Oldřichov in Hájích and Česka Lípa. Calendar of events was first available on the website www.kalendar-akci-lk.cz. In cooperation with the contributory organization Střevlák continued implementation of the project to support environmental education in kindergartens Mrkvička. Information about events in environmental education was provided through an Internet portal www.ekovychovalk.cz. He won in 2014 a new look and extend its functionality. OZPZ also coordinated and administered the 11th annual competition for the title product of the Liberec region of the food industry - agriculture. Until this year signed up 15 local manufacturers of 39 products. Awards were given to the winning products in 8 categories and the overall winner with the highest score. The award ceremony took place winning products have traditionally Regional "dožínkových" festivities. All information on all of eleven vintages are available on the website www.vyrobek-roku-lk.cz. Winning products were also presented in the brochure, which OZPZ published annually.

In the field of GIS was the biggest priority development options, adding new maps and expand jobs data inputs for the portal environment, which is available at <http://geoportal.kraj-lbc.cz>. The portal was created a new map tasks, or entire mapping applications: Development Plan for Water Supply and Sewerage, Conservation, Forestry and Water Management, Risk devices and more.

Work continued to flood the portal of the Liberec region <http://povoden.kraj-lbc.cz>. The system was connected to another village and conducted negotiations to connect the measuring sensors of the local warning systems villages.

Our biggest presentation event with the participation of about 700 visitors were GIS Days in Liberec. Under the banner Geoportal our resort assures 5 of 13 stations. Already traditional map scent and Walking on maps. New Virtual wander the old Liberec, habitat virtual demonstrations with Oculus Rift and map board game Tierra Demonical. The latter has enjoyed some notable successes - won first prize in a nationwide GIS ESRI User Conference in Prague in 2014 and the contribution of the program was accepted into the World Cartographic Conference in Rio de Janeiro 2015.

The project was NeoCartoLink two mA GIS department staff allowed traineeship in the workplace Forestry Tasmania in Hobart (Australia). The practice was focused on GIS support for forestry Tasmania.

As part of their job monument care department also assessed also planning documentation of municipalities and other documentation, and development documents, which could affect the national cultural monuments and heritage conservation areas across the board in the district.

The amount of 100,000 CZK reward Liberec won the regional round of the competition for the prize for the best preparation and implementation of the Programme of regeneration of urban conservation and conservation zones for the year 2013. The winner was the city of Frýdlant, second place was Lomnice nad Popelkou and third Česká Lípa.

In July 2014, the monument care department assisted in organizing the Day open house podstávkového together with the German Foundation podstávkového House (Stiftung Umgebndeland) and the local action group Frýdlantsko (MASIF). In the same month, then in the Liberec Region held the first days of folk architecture. In these days of brochure was published Folk construction of the Liberec region and a leaflet that participants days of Folk Architecture invited to visit the interesting folk buildings near the river Jizera.

In cooperation with the civic association Omnium Zs organized monument care department in December 2014 a seminar on the financing of cultural heritage under the title "Current possibilities of financing the restoration and preservation of cultural heritage."

Throughout the year, employees of the department of monument care actively collaborated with the National Heritage Institute and participated in the activities of the Commission for the regeneration of urban conservation areas in the region.

Tourism is a very important economic sector of the. In 2014, the region was visited by 718 000 visitors. The reason for this excellent location not only that undoubtedly belong among popular tourist destination, but also that there are working very good service that provides visitors with the business sector.

We support the activities of tourist organizations, tourist information centers and care and the development of cycling and hiking, cross-country skiing in the district. Promote Liberec in the Czech Republic and abroad, we work closely with the agency CzechTourism, the Ministry for Regional Development, with organizations and entrepreneurs of tourism in the district.

Drawing of EU funds

Tourism Department successfully completed in cooperation with the Club of Czech Tourists, Czech-Saxon project "Hřebenovka" which marks three parallel tracks (hiking, biking, cross country), which combine the Jizera Mountains, Černá Studnice back, Lužické Mountains and the Zittau mountains. In addition on route was built resting places, shelters with seating, bike racks, benches and outdoor maps. In 2014 he began the Liberec region to negotiate its further continuation in Karlovy Vary and the Ustí region on the one hand, through Hradec Králové, Pardubice and Olomouc region on the other. It was created by an integrated product of long-distance hiking. The project was developed as a flagship and submitted to the Czech-Polish border program.

In cooperation with the Association for the Development of Tourism Liberec Region and the German partner ENO mbH project was implemented in the program Ziel 3 / Objective 3 to support cross-border cooperation between the Czech Republic and the Free State of Saxony from 2007 to 2013 - "Modern tourism marketing opportunities", whose main activity was the creation of cross-border mobile applications Liberec Region Guide, available for 3 types of operating systems (Android, iOS, Windows Phone).

It was also commenced implementation of the project "Know Liberec Region - joint presentation of its tourist regions", which is implemented by the Regional Operational Programme NUTS II Northeast and focuses on the marketing of tourism, especially the development of film and barrier-free tourism.

Besides the projects implemented by the department and other "Celebrating Ještěd" on the occasion of the 41st anniversary of the opening of Mountain hotel and television transmitter Ještěd in 1973. Another project was the promotion of the tourism fair "Euroregiontour 2014", which is held annually in March in Jablonec nad Nisou and where is the Liberec Region one of the co. The department also organized a Regional Celebrations 2014 or section dedicated to tourism.

Promoting tourism infrastructure Tourism

It was supported by the maintenance of the marking hiking trails, including their equipment orientation system, including the development website maps and exposure to other line routes.

Support organizational structures Tourism in the Liberec Region

ECONOMIC AND REGIONAL DEVELOPMENT

The year 2014 was the seventh year of implementation of two basic conceptual documents, Liberec region - Liberec Region Development **Strategy 2006-2020** (hereafter SRLK) and the **Liberec Region Development Program 2007 - 2013** (hereafter PRLK). The Development Programme was issued in 2014 to 125 harmonies projects applying for financial support from European or regional resources. According to the methodology, developed personnel department in 2009, he has been prepared by continuous **monitoring PRLK 2013** the Council approved the Liberec region at the end of 2014 and posted a link on www.kraj-lbc.cz/prlk. In 2014 ORREP continued with the formation of a **new development program Liberec Region 2014 - 2020**. In the preparation of the document were involved in the most important actors in the region, including the public - a total of 250 people who worked in the 15 working groups and in the form of 42 workshops and significantly influenced the appearance of the document. The final document was subsequently discussed in all 10 municipalities with extended powers and the entire process was closed the public hearing, including evaluation concept's impact on the environment (SEA). Approximately 300 comments received, including the final version of the document was published on www.kraj-lbc.cz/prlk. The document was approved by the Liberec Region Resolution no. 359/14 / ZK dated September 23, 2014. Based on regional mineral policy of the Liberec region (hereinafter RSP LK), which was approved by the Assembly of the Liberec region at the end of 2011, prepared in 2014 ORREP opinions on proposed regional autonomy relating to the exploitation of mineral resources in the region. For these purposes was also used List of mineral deposits and mining activities accessible on the Web KÚ LK - www.kraj-lbc.cz, which outlines all of mineral deposits located in the region, allows prospecting by cadastral districts, municipalities, kind raw, protected deposit areas, mining areas, the state of use of deposits and other attributes.

A representative union in a **workgroup Ralsko** whose activities at the regional office in 2014, coordinated by J. pithy, Deputy Governor, the resort management of the environment and agriculture. During the year, the Department prepare the ground for negotiations equity committee counties in which they are addressed rentals and property sales Liberec region in this area. The union was involved in the process of implementing the Regional Innovation Strategy of the Liberec Region (RIS LK) approved in 2009 the Regional Assembly. On the basis of the Action Plan of this strategy is the fourth year run

information portal of the Liberec region for innovation on the Web at <http://www.portal-inovace.cz/> and in 2014 continued its activities **working group for the development of innovations** in the Liberec region as an advisory Authority member of the regional council in charge of the Ministry of Economic and Regional Development, European projects and rural development. The main output of the task force in 2014 was the assessment of projects under the public tender in research, development and innovation, "Innovation Vouchers 2013-2014", which is funded by the Regional Innovation Program Subsidy Fund Liberec region and focuses on innovation activities of enterprises and their networking with institutions of research and development. In connection with the preparation of EU programming period 2014-2020, the Department participated in the so-called processing. **A strategy for smart specialization (abbreviated RIS3 strategy or S3)**, a document that is nationally fundamental strategic document for funding of the European Union in the field of entrepreneurship, innovation, research and development, and its regional annexes specifies the so-called. Domain specialization and development measures for the area in various regions of the Czech Republic. The emergence of the document is significantly involved representatives of business, academia, scientific research organizations, public authorities and other interested organizations and entities operating in the Liberec region - a total of 35 players from which was created informal communication and consultation platform called "Innovation Platform" for the creation of the document and its subsequent implementation. In 2014, this platform has met three times and has provided valuable input and information processing regional final form attachments RIS3 Czech Republic, which was subsequently approved by the Assembly of the Liberec region on June 24, 2014. ORREP continued his involvement in the working groups of the Government Council for Sustainable Development, namely the **Working Group on the sustainable development** of the regions, municipalities and territories and the Working Group on Local Agenda 21. These working groups elaborate methodologies for specific activities and projects aimed at the implementation of the principles and themes of sustainable development, meet the estimated 2-4 per year. Since 2011, the Liberec Region has been a member of the **Healthy Cities of the Czech Republic (NSZM)**. In 2014 it carried out a campaign aimed at preventing health, namely "Let's live healthily" in Jablonec nad Nisou and "Days without Accidents" in Liberec. Was the first

challenge in the context of the grant scheme - subroutine to promote Local Agenda 21 (LA21 below) - the application of the principles of sustainable development at local and regional level. Liberec region also fulfilled conditions for the category "D" in the context of quality methods LA21. Method of public involvement in the processing of the Liberec region Development Programme 2014-2020 was at a summer school in Turnovo NSZM awarded awarding "Stamps good practice" in the area of strategic planning. For better marketing presentation of the project Healthy Liberec Region was selected PS ZLK logo project. **Continued communication with NGOs Liberec Region.** Representatives of NGOs have become permanent members of the Regional Conference and other advisory groups LK. Was a one-year evaluation of the functioning of the Agreement on Partnership and Cooperation between LK and the Association of NGOs LK, which resulted in the decision to terminate the agreement. It initiated the creation of the **Working Group for the nonprofit sector LK**, which first met in December 2014, which were shared basic experiences and concepts of optimal cooperation between LK and NGOs. It was also established cooperation with the new umbrella organization Non-profit organizations Liberec region (NELI). At the end of 2014, preparations were made for mapping the needs of the nonprofit sector towards regional autonomy by making the vision community.

In 2014, the Department continued **working with local action groups (MAS) and micro.** He currently works in the Region 9 MAS, in 2013, was among the MAS in the Liberec region divided amount of 1 800 000 CZK (ie. 200 000 CZK/MAS), grants were given a purpose and not to cover part of expenses related to the processing of integrated territorial strategy for the new programming period, the subsidy could be pumped into the September 30, 2014. In 2014, the Liberec Region has provided to support the activities of MAS grants totaling 900 000,- CZK. For the presentation of MAS was released a calendar of local action groups in the Liberec Region in 2014, which contains photos of individual projects and actions MAS and serves as a common promotional material. A representative of the Liberec Regional Authority during the year participated in negotiations National Rural Network, an organization that aims to regroup and government organizations involved in rural development and agriculture, and to be a communication and marketing tool of the Rural Development Programme. Liberec Region succeeded with an application to the **EU Solidarity Fund** and gained the ability to draw funds to repair the damage after the floods that hit the Liberec Region in June 2013. The Department ensures the administration of applications for subsidies for regional and municipal property. Total managed from the EU Solidarity Fund to raise over CZK 28 million. Like every year ORREP

involved in organizing **activities to promote geographic information systems - GIS Day.** Geographic information systems were used in 2014 for the creation of maps and cartograms current needs of the Department, particularly in connection with mapping attachments LK Development Programme 2014-2020. One of the activities of the Department is to coordinate the preparation and processing of regional strategic and conceptual documents. For this purpose the national level created called **Database Strategy** (www.databaze-strategie.cz), which includes documents on international, national, regional and local level. At the regional level, ensures continuous updating and inserting new documents just ORREP. One of the other activities of the Department's **presentation of brownfield sites** with the primary objective to achieve long-term recovery of these abandoned properties and thus contribute to the restoration of life to the often attractive locations in the region. The basic tool is publicly available and annually updated database of locations (www.kraj-lbc.cz/brownfields), which contains a total of 352 locations. With this activity, govern the possibility of consultations to obtain more information about the selected location and the possibility of using subsidies, and that the authorized administrator of the database, which is under contract ARR - Regional Development Agency et al. s.r.o. This database is also recorded locations that the owner has the intention to sell or lease. Part of the awareness of these locations was the organization of a total of 4 exhibitions in the Liberec Region (Železný Brod, Jilemnice, Doksy, Turnov), on which were presented successfully revitalized locations from Liberec region form has 28 panels. Another integral form of presentation was at the end of a seminar on the topic, which was focused on experience in remediation of contaminated sites and an overview of grant titles in the new programming period 2014-2020. In order to encourage investment opportunities in the region we are also actively updated and presented **greenfields Database** (www.kraj-lbc.cz/greenfields), which was established in 2009 and which is now in 19 locations. In 2014, for the tenth time organized ORREP contest Building of the Year Liberec Region. More information about the award-winning buildings in each category can be found at www.stavbarokulibereckehokraje.cz. Liberec Region to mark the 10th anniversary of the competition Construction of the Liberec Region in 2014 issued a publication that showcases all of her classes. ORREP already after ten participated in the organization of the regional round of the competition Village of the Year in the Rural Renewal Programme. In June this year was visited by the evaluation committee of the competition **Village of the Year** in the Rural Renewal Program 19 Municipalities to come forward to the 20th edition of this prestigious competition. Gold ribbon for winning the regional round the village received Rádlo. Blue Ribbon for the social life of the village was awarded Pysk. Green Ribbon for the

care of greenery and Environment was awarded to the city Ralsko. White Ribbon for youth activities include community Pulečný and orange ribbon for the cooperation of the municipality and the agricultural community Bozkov acquired entity. The evaluation committee followed up on previous years of the competition and awarded two prizes Liberec region - the village Mříčná "Award for Rural Development" and the village Zlata Olesnice award "Jumper of the Year". Under the grant fund manager LK is ORREP Program no. 2 - Program department of economic and regional development, European projects and rural development with 7 sub-programs aimed at:

- Rural Rehabilitation and Development, Rural Reconstruction development, improvement of public facilities, development technical infrastructure and care of the communities, but also training and consultancy in the field of development

- innovative potential of the territory, ie. To promote development research, development and innovation activities in the business of operators and deepening cooperation between these subjects with academia and organizations complying with the statute research organizations
- preparation of land use plans - The subroutine materially provides and administers zoning department

LIBEREC REGION AND THE EUROPEAN UNION

Liberec region is doing its part towards the European Union in three basic positions.

Primarily we are involved in the formation of European policy and its implementation at a national and regional level. It uses both permanent representation of the Liberec region in Brussels and lasting communication and cooperation with the Ministry for Regional Development, since the regional level is ORREP guarantor of the preparation for the **new EU planning period 2014-2020**. For this reason, during 2014, we actively participated in cooperation with the Ministry for Regional Development in preparing and negotiating a series of national documents, eg. A National Development Strategy 2014-2020 operational program proposals, guidelines etc. Representative ORREP became a member of the negotiating team Association of Regions and other working groups established by the Ministry of Regional Development to set conditions in 2014-2020. At the end of 2014 was at the inaugural meeting of the Regional Standing Conference of the Liberec region - new regional communication platform for 2014-2020 brings together the main regional partners, who together have addressed the use of EU funds in 2014-2020 in the district. ORREP started work as the permanent secretariat of the Regional Conference and ensures all technical and organizational matters. Besides organizing the activities to ensure that the platform has become a coordinator and main author of the **Regional Action Plan of the Liberec Region 2014-2020**.

The Liberec Region is also involved in the preparation of cross-border cooperation Czech Republic - Republic of Poland and the **Czech Republic - Free State of Saxony for the period 2014-2020**. In the Czech - Polish program is one of the members of the working group called. Task force. In the Czech - Saxon program is available at the Ministry for Regional Development (National Authority of the Programme), which turns to the region if needed some additional information and documents from the territory.

The other equally important role is the implementation of specific programs (OP) Education and Competitiveness, Regional Operational Programme NUTS II Northeast (OP) cross-border cooperation Czech Republic - Poland (OP) Cross-Border Cooperation CR - Saxony (OP) Environment and others. Within these operational programs, Liberec Region directly or indirectly involved in the implementation (ie. The administration of applications, project evaluation, monitoring of projects represented

in selection committees, monitoring committees, etc.). The Liberec Region is also involved in the solution of the future EU cohesion policy in 2014+.

Most important is implementation-region involved in the operational program Education for Competitiveness (OPEC), which aims to develop the knowledge society in order to strengthen the competitiveness of the Czech Republic through the modernization of initial, tertiary and further education, integrating them into a comprehensive system of lifelong learning and to improve the conditions in research and development through the implementation of the Global Grant of Priority axis 1 - Initial education and Priority axis 3 - Further training and support in the following areas:

1.1 Quality improvement in education 1.2 Equal opportunities in education 1.3 Further education of employees at schools and educational institutions, 3.2 Support of further education.

In the years 2008 - 2015 was allocated in excess of 645 million CZK among 185 projects.

In 2014, the Liberec region in the context of a global grant Improving the quality of education in the Liberec region, carry out administrative checks on monitoring reports of projects funded in the first and second call. In the area of support 1.1 - Improving the quality of education in this period we realized a total of 27 projects, of which 10 projects supported in the first call and 17 projects supported call another. Total financing 27.5 mil. CZK. As part of a global grant equal opportunities in education in the Liberec region performs administrative controls monitoring reports of projects funded in the first and second call. In 2014, the implementation of 4 projects from the first call and 3 projects of the challenges other. This global grant focuses on activities for students with disabilities or socio-cultural disadvantages. Total financing 10.9 mil. CZK. As part of a global grant additional education of employees of schools and school facilities in the Liberec region performs administrative controls monitoring reports of projects funded in the first and second call. In 2014, it was the realization of 14 projects. It was the 6 projects from the first call and 8 projects challenge other. Total financing 8.9 mil. CZK. In 2014, we completed the implementation of 14 projects of the global grant Support of further education in the district. From the third call ended its 5 implementation of projects and in the fourth call was completed implementation of 9 projects. Total financing 18.4 mil. CZK.

In terms of implementation, further regions are involved in programs focusing on cross-border cooperation - Operational Program CBC Czech Republic - Poland 2007-2013 (OP PS CR - PL) a program to promote cross-border cooperation 2007-2013 between the Czech Republic and the Free State of Saxony (PS OP CR - Saxony). In 2014 it took place last session of Czech - Saxon Monitoring Committee, which will approve projects. A total of 17 projects were approved. Applicant of the Liberec region was involved in 3 projects. In 2014 it took place last session of Czech - Polish Monitoring Committee to decide on the

approval of projects. A total of 13 projects were approved.

The third base position of the region towards the European Union is its role applicants for subsidies from European funds. This can be considered as broad as possible. Also in 2014, he continued Liberec region in the preparation and implementation of their own projects, which are financed from various EU funds, but also from other subsidy programs.

1. Projects completed within the Liberec Region in 2014

The table lists the number of projects completed LK in 2014 under the operational programs

Name of the program	Project number	Total cost (CZK)	Total subsidies (CZK)
EU subsidy funds			
Regional operational program NUTS II Northeast	15	411 779 098	366 236 739
Operational Programme Environment	3	53 029 047	29 983 329
Operational Programme Human Resources and Employment	2	19 144 463	14 392 407
Operational Program Cross-Border Cooperation CR - Free State of Saxony	3	1 160 916	1 011 779
The CBC Czech Republic - Poland	1	119 942	107 948
Total	24	485 233 466	411 732 202

2. Projects of the Liberec region currently implemented

Despite the end of the programming period 2007 - 2013 is 2015 important for the completion of a number of major projects, Liberec Region. Such deep and complex projects are typically executed more years. Of these projects, we can mention "Inpatient Hospice Liberec Region" or projects aimed at reconstruction of roads II. and III. classes, "Transformation of the residence facilities - Home for persons with disabilities Mařenice after", "Development of e-Government in the Liberec Region" or "The regional standardized project Ambulance Service Liberec Region". Also remaining to complete the 7 projects to insulate buildings and school facilities project aimed at improving the educational system in the Liberec region "Promoting science and technology education in the Liberec region."

Another important activity of the department's advice on **finding a suitable grant program** for various project plans.

Given that this report does not provide enough space for a detailed description of the projects can be requested at the **Department of Regional Development and European Projects** for more information (contact: projekty@kraj-lbc.cz). Furthermore, the website set up by the Department section, "project", where you can find information about all the projects that are administered by the Department of Regional Development and European projects.

EDUCATION, YOUTH AND EMPLOYMENT

Liberec was founded 63 schools and educational facilities in 2014. The region has given rise to more than 380 schools and school facilities run by other authorities. While in kindergarten and first grade primary schools, the number of children and pupils gradually increased, the second level of elementary schools and secondary schools continue to influence demographic trends facing the loss of students. In all segments of education has long reflected the increase of individual integration of pupils with special educational needs. In annual comparison of the number of students in the first years of secondary education can be seen a slight decline in the number of pupils in secondary education courses with a vocational certificate, while more students were accepted annually to secondary school diploma and to the fields of general, grammar school education.

Ministry of Education, Youth and Employment in 2014 continued the implementation of its priorities in education, particularly emphasized the measures increasing the quality of education. One of the steps for quality assurance in education was the single admissions to the Liberec region organized for the fifth time. Unified entrance exams were conducted through tests in the Czech language, mathematics and general scholastic aptitude. Tested were contenders for the fields of secondary education with graduation exam, on fields of education with talent examination, and follow-up studies in the fields of daily form of education. Within the unified entrance exams in 2014 was first set out the boundaries of success for acceptance as one of the criteria for the admission procedure, and that for grammar schools and four-year multi-year (excluding sports gymnasiums). Boundaries success that candidates had achieved was 35% of the maximum score for the 4-year grammar schools and 40% in grammar schools, 63 respectively. 72 points out of 180. In the uniform entrance examinations involving a total of 36 schools established by the Liberec Region. Do not aptitude test subjects were registered 2,776 candidates who filed 4038 applications for the fields of education, who were involved in the testing. Testing candidates participated in the 42 branches of education. Into the fields with an audition (arts and sports schools) were registered 193 candidates who submitted 205 applications to the 8 education fields. Liberec Region in 2014 as the only county verified the knowledge, skills and abilities as well as for applicants for subjects with an aptitude test.

Liberec region in 2014 continued to implement campaign activities in support of vocational education TECHyes. The core activity since 2010 Scholarship program for secondary schools established by the Liberec Region in selected fields of education that provides financial support and incentives scholarship

students 13 three-crafts. Nine secondary schools involved in the program have been used for the needs of the scholarship program in 2014 a total of 2,092,400 CZK. Under the banner TECHyes took place October 16 to 18 at the Liberec arena eighth annual fair education and employment opportunities EDUCA 2014 MYJOB Liberec. Fair was attended by 77 educational institutions and 33 companies. The event was attended for the entire three days of over 10 000 job seekers and education. Besides the largest fair of education and employment opportunities in northern Bohemia EDUCA held the traditional parade regional high school, called. Exchanges secondary school in Jablonec nad Nisou, Turnov and the Česká Lípa TECHyes also supported the involvement of secondary schools in educational projects and professional competitions.

Endowment Fund of the Liberec region in the program the Ministry of Education, Youth and Employment split in 2014 in a challenge of almost 2 mil. CZK - 4.1 Support of leisure activities and Teaching 4.5 assists. Total received 192 grant applications for projects totaling almost 22 mil. CZK. Representatives of the Liberec region has chosen to support 63 projects of individual applicants. In its activities, for example, was supported by the DUHA civic association, which helps children from socially disadvantaged environments, or Křižanský Elementary School in Liberec gaining promotion to assistant teacher.

In cooperation with schools and educational facilities in the region was organized in 2014 a total of 41 district and 56 regional progressive rounds subject Olympiads and art exhibitions announced the Ministry of Education. To implement progressive rounds received Liberec region Development Programme of the Ministry "Support for competitions and shows pet education for the school year 2013/2014," non-investment subsidy of 1,095,000 CZK. Liberec region from its budget support for gifted youth the amount of 120 thous. CZK Advancing the wheels passed over 17 thousand pupils in primary and secondary schools of the Liberec Region. The national round represented the region of 90 students. In November 2014, the place of traditional advertising and pricing successful pupils in national rounds of competition for the past school year. A total of 39 primary and secondary schools in the region were handed over cash prizes totaling 67,500 CZK for exceptional achievements and outstanding representation of the region.

Every year - in 2014, for the twelfth time - under the auspices of the councilor responsible for the Ministry of Education conducted a social gathering representatives of the governments of the Liberec region with the teaching staff on the occasion of Teachers Day

celebrations. The ceremonial meeting a valuation of approximately twenty selected teaching staff of schools and educational institutions located in the territory of the Liberec region in two categories: "A significant contribution to the development of education in the Liberec Region" and "Award for long-term educational activities."

The global grants Liberec region financed by the Operational Programme Education for Competitiveness continued to project administration, which has been in previous years divided by the Liberec region amount exceeding 645 mil. CZK.

Into the second half came the realization project support science and technology education in the Liberec region, whose main aim is to motivate students of primary and secondary school students to study science and engineering fields. On 29 partner secondary schools was implemented nearly 70 rings on various topics, schools should implement project days for elementary schools, excursions to the technical and natural exposures and use the newly acquired equipment worth more than 19 000 000 CZK. Equally important activity of the project was the creation of so-called. Methodical centers, where they meet and share their experiences educators same focus. The project was supported by the Operational Programme Education for Competitiveness.

In May 2014, the implementation of the project Creation of the Joint Strategy and Action Plan in the field

of human resource development in the Liberec region funded by the Operational Programme Human Resources and Employment. The project is aimed at determining the development priorities and goals of the Liberec region in the fields of education, tourism and social services in relation to the new EU programming period 2014-2020.

Within the project's sustainability consultancy in the Liberec region they were financed seminars and lectures on counseling and care for pupils with special educational needs, methodological meeting of school prevention, speech therapists and others.

On the operational non-investment expenditures were schools and school facilities established by the region provided more than 273 mil. CZK. It was also the provincial budget earmarked for investment projects over 17 mil. CZK. In 2014 it was carried out for more than 2 mil. CZK fix drainpipes at the house the King's Grove Center, which uses a specialized teaching High School of Gastronomy and Services in Liberec. Furthermore, a grant was awarded in the amount of 1 mil. CZK To repair the gymnasium floor Grammar School in Mimoň. Secondary Technical School of Mechanical and Electrical Engineering and College in Liberec received a grant in the amount of 591 thous. CZK for the partial replacement of windows and also from the regional budget in 2014 was given by Dr. Anton Randy Grammar School in Jablonec nad Nisou 2 mil. CZK.

Valuation of students successful in national and international competitions and festivals

The Liberec region since 2003 has worked on improving safety on the roads. The concept, approved by the Regional Assembly, outlines various activities in the field of human factors and roads whose primary objective is to reduce road accidents and their consequences, especially on roads of all categories. The document is periodically evaluated annually, updated and supplemented. It is available in unabridged form on www.kraj-lbc.cz.

Despite all the measures often die on the roads innocent people. The price of human life expressed the amount of direct and indirect costs associated with an accident in which a person dies, according to the latest data provided by the Transport Research Centre in Brno amounts to 19.44 mil. CZK moral cost can not be quantified at all. In 2014, died on the roads of the Liberec region 28 persons

in 3,572 traffic accidents. Attention to the transport sector last year was again directed to the area of improving the safety of road users, in particular in the area of human factor that is the cause of the vast majority of traffic accidents. Considerable attention was paid spots on the road network on which there was a traffic accident. The priority of the region's traffic calming in urban areas and improving safety on sections of regional roads.

Comparing the total number of traffic accidents in the Liberec Region in 2006-2014

Traffic accidents	2006	2007	2008	2009	2010	2011	2012	2013	2014

Road pavement condition of class II. and III. roads in the Liberec region is evaluated annually based on the collection of road failures. Collecting disorders roads and pavement monitoring is the first step to build the bases for a plan of maintenance and repairs. Recent data collection failures pavements on the roads of the Liberec region was conducted in 2014 across the network of roads II. class ie. approximately 490 kilometers and at about 1/2 of roads III. class, ie approx. 800 km. After a detailed treatment of disorders in each part of the summary was made into groups with the same character and the same violation appropriate technology, maintenance, or repair. For failure analysis based on TP 87 is subsequently performed classification of individual sections of the monitored road network into 5 categories depending

on the condition breach of condition assessment "excellent" to "emergency". For the classification of sectors is crucial percentage of violations in the areas with the largest section of the disorder - a critical range of disorders. The assessment shows that more than 771 km (37.18%) of roads II. and III. Classes in the Liberec region is classified as an emergency, and at approximately 295 km (14.17%) of roads, their condition unsatisfactory, therefore, that the roads do not meet the conditions of their operational capacity by the occurrence of failures and must be done to repair or maintenance. It follows that, in the Liberec region, more than 51% of secondary and tertiary roads. and III. classes in substandard or even dangerous condition.

Road condition for class II. and III. roads in the Liberec region between 2008-2014

Road condition (length in km)	2008	2009	2010	2011	2012	2013	2014

Distribution of class II. and III. roads in selected municipalities Liberec Region in 2014

Removing damages after floods

In August 2010, floods hit the Liberec region, specifically to a lesser extent parts of the districts of Česká Lipa and increasingly part of the district of Liberec. Floods hit a total of 198 bridges on roads II and III Class of a total 666 throughout the region, of which 121 bridges was and possibly still has limited carrying capacity. A total of 22 bridges required complete reconstruction. Total damage to bridges on roads II. and III. classes were estimated at 453.2 mil. CZK. On II. and III. Classes in the Liberec region was hit by a total of 38 sections that were or are still impassable due to landslides, flooding, damage to the bridge, etc. The total damage to the road network owned by the Liberec region were estimated at 1.59 billion CZK. Total damage to the road network owned by the Liberec region and bridges on roads II. and III. classes were estimated at 2,037 billion CZK.

The aftermath of the road network owned by the Liberec region to the greatest extent Liberec used funds from the Ministry for Regional Development 'Renewal of municipal and regional property affected by natural or other disaster' where the complicity region of 50% of total eligible costs in the first round the subsidy program. In 2014 was completed four major projects liner of total costs 610 mil. CZK. It is the action of the road II / 290 Frýdlant - Bílý Potok (Phase I), II / 592 Chrastava (Phase I), roads III / 03513 and III / 03515 Heřmanice - Dětrichov and roads III / III and 0353/0357 Víška - Višňová - Poustka. As an additional challenge program of the Ministry for Regional Development for the reconstruction of damaged property flood county, filed Liberec region in 2013, requests for further 4 line of action. Specifically, the action of the road III / 27252 Vítkov II / 290 Frýdlant - Bílý Potok below spruce II. stage II / 592 Chrastava II. stage, and the road II / 290 reconstruction of the retaining wall in the 12.5- km 12.6 and bridge 290-011 and 290-014. The present actions were enrolled in the program and obtained grants totaling approximately 72% of the total eligible costs. These actions will be completed in 2015. The total cost of the above actions is approximately 548 mil. CZK. Liberec earned on these events subsidy of about 393 mil. CZK.

At the beginning of June 2013 floods again affected a part of the Liberec region. Although floods in 2013 did not reach the intensity of floods in 2010, nevertheless roads were damaged. Part of the roads that were damaged by floods in 2013, was damaged and the flood in 2010. The flood repairs began Liberec region in the year 2013, when after initial removal of consequences of floods (fallen trees and branches on

the roads, cleaning of soil washed up, etc.) started mainly designing stage individual events. In 2013, it was in connection with the June floods paid a total of 9 045 311,50 CZK, of which the proportion of funds paid by the Liberec region 1356 amounted to 812.50 CZK. The actual construction work on the elimination as a consequence of floods in the vast majority started up in 2014. The total amount paid funds for flood damage in 2014 amounted to 160 722 324,44 CZK. The share of the State Fund of Transport Infrastructure for flood damage from 2013 to 2014 amounted to 135 383 000 CZK. Liberec region from its own resources it allocates to neutralize the damage caused by floods 324.4425,339 CZK. Another hearty financial assistance for the Liberec region was also European Union Solidarity Fund, from which he received Liberec grant totaling 18 480 210.93 CZK. Further, an amount of 1,442,167 CZK was covered by insurance benefits.

In 2015, the Liberec region of the State Transport Infrastructure Fund promised financial assistance in the amount of 187.6 mil. CZK for the repair of roads II and III class. Of these funds, which will be increased by 15% because of the necessary involvement of the Liberec region (a total of more than 220 mil. CZK) and the region will finance the repair and reconstruction of roads II. and III. class, including bridges and culverts. Furthermore, in 2015 to be completed flood damage from 2013, where repairs are planned on 4 stretches of road in the anticipated value of 13 mil. CZK. Will also be completed on line projects of regional roads that were damaged by floods in 2010. Specifically, the road II / 592 Chrastava - Mníšek, II / 290 Frýdlant - Raspenava - Hejnice. Finally, renovations will take place in the total financial volume of approximately 300 mil. CZK.

Since 2003, regional transport services and pays for the loss that arises operations of the extent of public rail and road bus service. Based on the optimization steps and interconnection of individual transport modes has managed over rising prices of input costs, especially fuel to maintain the same range of service as in previous years. Inalienable factor is the proportion of municipalities that have contributed to cover losses from 2009 and the share of the state to pay for regional rail transport. **The 2014 budgeted amount of nearly 626,941 mil. CZK (including specific grants of MD at approx. 92,565 mil. CZK), which was paid a total of 12 transport companies, based on the contract of public service obligation with the Liberec region on cover operating losses of rail, tram and bus services. The traveling public was for the year 2014 offered 17,154 mil.**

In August 2010, trains began operations in the Liberec region a new carrier, Viamont, as from 20. 12. 2011 GW Train Regio s.r.o., which operates railway transport in cooperation with the Polish carrier Przewozy regional to put into operation a new track from Harrachov to Szklarska Poreba. In December 2010, trains began operation in Liberec Region first carrier resulting from the tender, the company Vogtlandbahn-GmbH, an international track Liberec - Hrádek nad Nisou. - Zittau (Saxony) - Varnsdorf (Usti Region) - Seifhennersdorf (Saxony) / Rybníště (Usti Region), modern Desiro units for passenger trains under the trade name Trilex. In December 2011, followed by the start of further operation of trains under the tender procedure - called the trains. Jizerskohorské railroad rail lines encircling Bohemia slid open under the

auspices of Czech Railways brand new modern units Stadler RS1. Since mid-December 2014 began on the basis of successfully completed a tender to operate the company Vogtlandbahn GmbH express trains on Line 2 RegionalExpres Zittau - Liberec. Liberec region and in 2014 ordered the transport services the regional transport trains with three transport companies based on a total of 5 contracts (2 with Czech Railways, 2 with Vogtlandbahn-GmbH and one with GW Train Regio as) in the amount of 3,802 mil. CZK.

Cycle transport

During 2014, the Department of Transport began with partners in the area to prepare cross-border investment project "Around about Jizera" from the Program for Cross-border Cooperation Czech Republic - Republic of Poland from 2014 to 2020 - a project aimed at making cycling of natural and cultural heritage of the Jizera Mountains. The project aims to create a circuit that would circumvent Bohemia and enable knowledge of their attractiveness cyclists from both sides of the border. Lead partner of the project will Euroregion Neisse, in preparing a project on the Czech side are involved in the following partners: Euroregion Neisse Liberec, Frýdlant, Hrádek nad Nisou, Chotyně, Bílý Kostel, Chrastava, Liberec, Vratislavice nad Nisou, Jablonec nad Nisou, Lučany nad Nisou, Smržovka. PL on hand ensures coordination activities Polish Euroregion Neisse. The project is contemplated over the years 2016 and 2017. In addition, work began on a concept paper Liberec region Development Programme for the years 2015 to 2020, including an action plan. Approval of the document is expected in 2015.

The main objective of regional transport policy

Quality transport infrastructure, optimized transport services with the environment in mind, connecting the Liberec region to the national and European transport networks, the improvement of existing transport infrastructure as a means of developing other areas of social life, especially economic development, tourism, agriculture and rural development, possible compensation differences in the level of transport infrastructure between areas in the region and optimizing the transport accessibility of public transport.

Thirteen years has been updated "**Analysis of the status of transport in the Liberec Region**", which is available for inspection at www.kraj-lbc.cz.

Department of Social Work

Within the methodological and control activities ensuring co-ordination of the process of social workers and probation officers for adults in their territory, is taking steps to unify the method of application of known methods of social work, it shall carry out an analysis and assessment of implementation and levels of social work methods, checks the performance of state administration in this area. The department has included a regional drug coordinator who is involved in the preparation of the National Drug Policy Strategy, methodically led its partners to municipalities with extended powers and cooperates with the Government Council for Drug Policy and other organizations dealing with to this issue. The department also provides activities coordinator, national minorities and foreigners, which mainly causes employees of municipalities with extended powers, contributes to the elaboration of concepts of ethnic minorities, proposing measures to improve the situation of Roma and ethnic minorities in society, working with the Government Council for Roma Community Affairs, Agency social inclusion and ultimately monitors excluded localities in the region. The regional coordinator for matters of national minorities and foreigners regularly attended meetings of the local partnership created groups in Great Hamrech, Ralsku and in the micro Frýdlantsko, if necessary, participate in discussions and other personnel department. An important milestone for work in socially excluded localities in the signing of a Memorandum of Cooperation between the Liberec Region and the Agency for Social Inclusion. The department also provides performance agenda child protection in accordance with law no. 359/1999 Coll., As amended, is made especially child protection, organization and arranging foster care in the region, making decisions on granting state contribution for founders of facilities for children needing immediate assistance on the amendment, suspension and payment of contributions, issuing and withdrawing authorization to carry out child protection, methodical management and control of power line child protection with the aforesaid Act and issued credentials. All agendas there is a regular transmission of information to the employees of municipalities, authorized local governments or municipalities with extended powers, regular workshops, case seminars, training sessions and seminars. The department implements two projects funded by the European Social Fund - IP 5 Project Support and development services in socially excluded

localities Liberec region, within which were supported by social activation services for families with children, low-threshold facility for children and youth outreach programs in selected socially LK excluded localities and project support standardization body for social and legal protection of the Liberec Regional Authority, under which, inter alia, managed to prepare and publish a major document - Quality standards of child protection KÚ LK.

Department of Social Services

In connection with the transfer of responsibility for funding local social services from the Ministry of Labour and Social Affairs at the Liberec region, a network of social services, which represents the service to be funded. The whole process is legislatively anchored by Act no. 108/2006 Coll. Social Services, as amended, in Section 101a. The network of social services will in future be updated and supplemented as the situation in our region. In the exercise of delegated powers, in accordance with the law on social services and the law on state control, were carried out to check compliance with the conditions stipulated for registration with social service providers, who have been granted a marketing authorization. In the exercise of independent competence of the department of social services providing methodological guidance eighteen of social services, which is the county founder. Home for equipment for people with disabilities Mařenice, an organization that is involved in the nationwide process of transformation of residential social services implemented as a pilot project MLSA "Support for the Transformation of Social Services" started construction of new buildings for persons with disabilities in ordinary buildings in Zwickau and in Nový Bor. In 2014, a working group Persons with Disabilities, which addresses the issue of persons with disabilities and the working group Seniors. Working groups are composed of representatives of social service providers and organizations whose work touches on social issues and a representative of the Liberec Regional Authority. Members of the working group to detect and analyze the needs of the target group, expressed to development activities, collaborate on analytical and strategic part of the Medium-Term Development Plan of Social Services in Liberec region. In 2014 it was realized the construction of sheltered housing facility and Home Center activities funded organization, Hodkovice nad Mohelkou, and reconstruction of the

existing building, incl. construction elevator - all at a significant financial contribution to the arts (painting Artists mouth and feet). In Central daily services Jedlicka Institute in Liberec, which is already more than a hundred years old for handicapped children and adults, managed with the assistance of sponsors to build a multi-sensory room "Snoezelen".

In 2014 we were realized these important events and activities:

ADMINISTRATIVE, LEGAL AND CONTROLS DEPARTMENT

Administrative Department

The administrative section of the 2014 exercise the powers vested in the delegated powers of state administration according to the Organizational Rules of the Liberec Regional Authority - Agenda registers and citizenship ceremony composition of the citizen's oath before the Director of the Regional Office, extracts from the register of the registry; vidimus and legalization, change of name and surname, verification of documents abroad, the agenda of public collections and public contracts, the Board of infractions and management of interference residence, the agenda of the Regional Licensing Office (controls on prices and advertising regulation agenda and appellate proceedings conducted by local trade authorities), the Board agenda under the Municipalities Act, decisions by Act No. 106/1999 Coll., etc. We provided the electoral process to the European Parliament, local councils and elections to the Senate. In 2014, we again focused primarily on fulfilling the vision of the administrative department and the entire regional office: that the performance of public administration of the highest quality not only in the regional office, but also, and perhaps above all 215 municipalities LR. We performed extensive technical assistance and methodical activities for local authorities within the Liberec region, because our fundamental starting point is to gradually unify the performance of various administrative activities at all government offices in the LR. Therefore Seminars were organized, carried out checks and inspections, personal consultation, have been produced or supplemented in writing methodical manuals etc., this trend will continue in the coming years. During the year we have prepared draft comments to a large number of various proposals for legislation, when the county is the official place for comments in the context of inter-ministerial consultation.

Control Department

Control Department of the Liberec Regional Authority in 2014 undertook a total of 434 inspections, of which 368 inspections in the exercise of delegated powers and 66 controls in the exercise of its own powers. These inspections were carried out in accordance with the regional council approved "plans inspection activities" and always to the relevant half of 2014.

The delegated powers of inspection carried out by the Department in the first half of 2014 a total of 212

examination of the finances of municipalities and voluntary unions of municipalities and according to § 4 para. 4 of the Act no. 420/2004 Coll. a review of the management of local governments and voluntary associations of municipalities, as amended. Control Department secured individual examination of the statutory deadline and according to the prepared schedule, which was submitted to the Ministry of Finance. Examination of the operations were performed on:

- 190 municipalities out of a total of 215,
- 22 voluntary associations of municipalities of the total 26th

In the second half of 2014, the Department conducted 156 inspections partial review of the financial management of municipalities and voluntary associations of municipalities in accordance with the provisions of § 4 para. 4 of the Act no. 420/2004 Coll. Sub-examination of the operations were performed in this range:

- 134 municipalities
- 22 voluntary associations of municipalities.

Individual control of USC and DSO were made on the basis of requests received, the USC and the DSO. Inspections were carried out a total of 10 controllers, including the head of the department of external and **internal controls and Head of control. To ensure the objectivity, independence and avoidance of bias of individual inspectors and control groups at regular three-year cycles, individual inspectors and control groups at USC reviewed and DSO rotation schemes.** By the Department of KU LK Control is thus ensured compliance with the provisions of Section 5 paragraph. 1-8 of the Act č.420 / 2004Sb. and methodological recommendations of the Ministry of Finance. An integral part is in addition to carrying out its own review of the management by the inspectors as well as providing guidance for individual territorial self-governing units.

In a separate scope Department carried out inspections in 2014 a total of 66 inspections. It was always a public-spot checks and according to the law no. 320/2001 Coll., On financial control in public administration. From a total of 66 inspections were carried out 20 inspections governmental organizations, whose founder is the Liberec Region 2 controls KU LR unions in the area of registration of grants, 35 inspections of subsidies and controls 9 grants from the

EU Solidarity Fund. Furthermore, the inspectors participated as members of control groups and other control measures.

During the initial financial controls was found a total of 59 flaws. In the case of identified deficiencies were always taken corrective action in four cases was ordered follow-up the implementation of remedial measures to verify the accuracy of the adoption and implementation of such actions.

Control Department of the KU LK apart from its own control **activity also provides monitoring services for the Ministry of Finance**. Coordinate and prepare the annual report on the results of financial controls in cooperation with regional authorities in the Liberec region in the framework of the annual reports Module (intranet software program MoF), which delivers the MoF within the specified time, including commentary and tabular reports pursuant to Decree no. 416/2004 Coll., as amended, under which implementing the Act on Financial Control in Public Administration no. 320/2001 Coll., as amended. In 2014 the Department checks processed for the Liberec region "evaluation report on the results of checks on the exercise of delegated powers entrusted to the regional authorities", submitted by the Ministry of Interior and subsequently discussed by the Czech government in the general document. In its scope and provide the Inspection Department consultancy and methodological activities of trade unions KU LR especially in the performance of public administrative controls in place, also in cooperation with the economic department and ministerial departments also provided consulting and methodological assistance allowance organizations, local government units and voluntary unions Municipalities.

Legal Department

The Legal Department is divided into legal department and the department of supervision and legislation.

The Legal Department in 2014 ensured service for regional bodies within its self-government activities. This agenda included mainly the issuance of opinions on a variety of legislation, mostly to the Act on Regions and the Act on conflict of interest and assessing contracts and their records. Legal department were registered in 2014 over 3000 contracts concluded by the region. In addition, the legal department represented the county or the regional office in more than 30 mandated negotiations in court.

Department of supervision and legislation in 2014 performed primarily delegated powers. In the area of local taxes has acted as appellate body and provide

methodological assistance to municipalities to consolidate procedures. Furthermore ensured supervision over the issuing and content of municipal regulations and provide methodological assistance notably in issuing regulations to ban pochůzkového and doorstep selling (protection and security of citizens).

legal Department also registers and handles petitions and complaints delivered to the county. For the year 2014 were handled a total of 6 petitions and 64 complaints.

A WORD FROM THE DIRECTOR OF THE LIBEREC REGIONAL AUTHORITY

Dear friends,

The Regional Authority is the executive body which performs tasks with autonomous powers assigned to it by the council. The delegated powers of state administration arising from the Act on Regions and by special laws. A total of 400 systematised jobs were filled within the Regional office, including 33 jobs paid for out of the budget of the Liberec region, mostly from European projects.

The Regional Authority has long been actively focused on improving the quality of services. It thus aims to fulfill the vision of the office - be a respected, open and credible institution that provides quality services and contributes to the stability and development of the region.

In 2014, we achieved a number of successes, of which the largest one receiving the award **EXCELLENT ORGANIZATION**. My colleagues and I received this award on 25 November 2014 as part of the 20th annual National Quality Award in the Spanish Hall of Prague Castle. We also received the international award EFQM (European Foundation for Quality Management) Recognised for Excellence 4 star. Regional office of the Liberec region thus became the first ever office in the Czech Republic, who won such awards by EFQM.

Between 2013 and 2014 we implemented a regional office project called the next step to quality, which was financed from OP LZZ, together with the regional budget. The project was attended by all employees of the regional office staff and selected municipalities within the region. The project was to offer courses that deal with financial planning, law and legislation, especially the new Civil Code, labor law, the law on municipalities, counties, and officials of local governments. Popular courses with also soft skills, eg. Presentation

and management skills and effective communication in public administration

Successfully our office continues the project of "Development of e-Government in the Liberec region", which is also financed by the European Union. The main objective of this project is the modernization of local public administration in the Liberec region and streamline government services through greater use of information and communication technologies in the area. The Liberec region wants to modernize, simplify and accelerate the performance of government services for citizens, businesses, organizations and municipalities. The benefit for these target groups are eg. A hosted electronic filing service for communities, organizations, creation of a single platform for trusted document storage, digitization of important documents and books in collaboration with the Regional Scientific Library, saving the costs associated with handling paper documents. Creating a digital map of public administration Liberec region will facilitate management and availability of basic reference and thematic spatial data and providing guaranteed information about the area. Implementation of this project will increase the quality and speed of services provided to citizens of the region and municipalities with extended powers.

René Havlík,
Director of the Liberec Regional Authority
